

ZIEHER

2020
PROFESSIONAL

represents innovative design in high-quality craftsmanship and is appreciated for more than 30 years as a reliable partner for luxury hotels and high class gastronomy. Impressive buffet performances, luxurious food presentations and exclusive home accessories bear the name Zieher around the globe. Since 2015, unique wine glasses and decanters are also on offer.

Zieher products are destined for the most demanding customers and convince with the highest quality, exquisite materials and unique design. The range is constantly being developed in close cooperation with professional chefs and top hoteliers and thus always offers new inspiration for extraordinary presentations.

Buffet

5

- buffet displays: etagere / display "Falcon" - "Somnia" - "Spike" - "Textura"
- buffet displays: "Crossline"
- buffet systems: "Skyline" - "Squareline" - "Curve"
- The Zieher-System:
 - "StiXXX" - "V12" - "Basic" - "Luxor" - "Classy" - "Solid" - "Konkret!" - "Antique" - "Lightning Buffet"
- cooling element "Chiller-Base"
- buffet platters made of natural stone, laminated plastic and glass, buffet steps made of glass
- buffet stands "Stablo"
- buffet bowls made of pewter, brass, shell, glass, stainless steel and walnut
- buffet etageres
- serving tongs
- "Fingerfood-Tree"
- serving trays and buffet systems made of walnut: "Mercato" - "Solid"
- buffet bridges and trays "Podia"

Catering

121

- Bento Box
- melamine trays and accessories
- serving trays and cutlery boxes
- tray system "Modul": walnut - melamine - glass and china inserts

China, glass and more!

141

- main series and small series made of china / glass
- china plates, platters, trays, bowls and small bowls
- glass plates, platters, trays, bowls and small bowls
- napkin ring made of pewter
- cloches made of glass
- charger plates

Wine glasses and more!

183

- wine decanter / carafe "Star" - "Star" mini
- basic ring with LED for decanter "Star" and "Eddy"
- wine decanter "Eddy" - "Eddy" mini
- wine decanter "Pebble"
- wine glass series VISION
- champagne flute "Vaganza"

Miniatures

199

- anti-slip coasters made of silicone
- glass miniatures, borosilicate glass, double-walled glass
- china miniatures
- stainless steel miniatures
- skewers and natural stone
- party cutlery, amuse gueule / tapas spoons, glass- and honey spoons

Cruet stands, trays, etageres and more!

227

- trays made of melamine and wood
- Bento Box made of melamine
- chocolate / truffles boxes, suitable inserts made of solid surface material
- bread baskets / boxes, trays and snack boards made of walnut
- etageres made of stainless steel
- jam trays and food displays
- vinegar / oil bottles
- cruet stands and trays with suitable inserts
- trays made of melamine and glass with 3 / 4 sockets for inserts
- wind lights and accessories

Room service / guestrooms

271

- roomservice trays and accessories
- storage / presentation boxes, cutlery box "Solid"
- displays and trays "Podia"
- etagere "DressCoat"
- coat rack "Kibu"

Excellence since 1986 - Exclusive design since 2006

In the year 2006 we designed the first items ourselves and placed them on the market.
Since that time developing and implementing exclusive design objects has been our calling.
On this page we show a couple of the most important creations of the past years.

Design, innovation and quality are our mission!

plate "Rough!"

china, matt black, round, structured surface

item	Ø in cm	PU
4567.24	24	4 pcs

More buffet platters made of laminated plastic are available on pages 48 and 49.

Anti-slip sleeves provide a safe positioning of buffet platters.

"Falcon" - really detached!

This etagere, inspired by the elegance of a falcon, is giving wings to the creativity at the buffet. A single one can bear up to three plates on its wings or, when used as a duo, fitting buffet platters or a combination of both can be installed. Anti-slip supports can be plugged on if needed and thus provide a safe positioning of the platters.

As a high-tea stand, the etagere carries plain white coup plates or matt-black plates with a slate-like structure. Those plates fit exactly into the slots of the wings.

The mirror polished, solid stainless steel (3 mm) punctuates the precious impression of the dynamic shape, incorporated handrails facilitate the service. This majestic creature is sitting on a stylized branch, which also provides a firm stand.

At first glance the golden branches, carefully strapped to a bundle, are reminiscent of a besom and braided objects of a different kind. The buffet displays and luminaires of the “Somnia” series are assembled from organically shaped, filigree rods which are made of solid brass in traditional sand casting. These single components, reminiscent of brittle branches, are afterwards melded in complex handicraft to impressive unique pieces. The matt-golden surface of the “Somnia” series harmonizes elegantly with the grey glass of the handblown bowls, which have been specially adapted to the shape of the small stands. The two bigger buffet raisers form a precious basis for bowls and buffet platters of all kind. Optionally available black rubber caps can be fixed if required to improve the slip resistance and to protect the sensitive surface of furniture. The smallest version of these little pieces of art also impresses at a set table. An amuse-bouche, bedded on a nest of golden branches, will be treasured by the guests for a long time.

4814.30	30	13	approx. 3.25
4814.40	40	10	approx. 4.5

The wind light of the “Somnia” series is equipped with a solid base plate with an elevated rim. This base avoids a leakage of wax and protects the table surface from heat. Furthermore, it forms the frame for a removable cylinder, made of heat resistant glass, which by way of its satined surface, intensifies the mood of light and protects the flame from wind at the same time. With candlelight, this extraordinary lighting object creates fascinating effects and provides for a cosy and comfortable ambience.

“Spike”

“Spike”

Modern and compact – bowl displays “Spike”

The anthracite coloured displays of the “Spike” series consist of translucent acrylic with a silk-matt surface. They are an elegant combination of shapely elements with a flexibility, suitable for everyday usage. As the stands have been adapted exactly to the grey glass bowls belonging to the series, they form a harmonious picture and additionally provide a safe stand. A combination of the stands/trestles with buffet platters – even in a flipped position – is also possible and increases the usefulness of the displays enormously.

The plug connections between the single items are very practical. They are compatible with one another within one size of stands which guarantees a maximum of variability and creative freedom. Existing elements can therefore be newly arranged and extended almost arbitrarily by buying additional single items.

The displays of the “Spike” series are available in ten single units for several bowl sizes as well as ten pre-configured sets. Optionally available wooden transport and storage boxes simplify a space-saving storage of the single pieces.

buffet display “Spike” S - parts
acrylic glass, 6 mm thick, anthracite, satined, translucent, size S for glass bowl item 4814.17

item	version	l x h in cm
a) 8260.10	top part onefold	11.6x6

5665.02	56x25x13	8261... and 8262...

The cloches and porcelain bowls and plates of the series “Cuspis” are available on page 144 and 172.

In order to grant a harmonic all-over illumination while using stacked cuboids, it is recommended to use one LED lamp per item. For usage of bigger buffet platters, we suggest to employ the elements with 30 cm edge length. Due to the flexible material, we recommend stacking a maximum of two cubes on top of each other, when the system is equipped with heavy platters or bowls.

Precisely fitting recess for ZIEHER LED lights (page 44 / 45)

buffet display “Textura”	
polyethylene, transparent, with notch for rechargeable LED-light item 8150	
item	l x w x h in cm
8232.24	approx. 24x24x10.5
8232.30	approx. 30x30x10.5

“Textura” - indestructible, innovative, exclusive!

The exclusive cuboids of the „Textura” series are exceedingly interesting, even at a second glance, due to their awesome structure. They consist of thin polyethylene filaments, which are convoluted intricately and fused together. This awards them a flexible but nevertheless very stable texture. The true potential of this innovative material is only disclosed in connection with light. The light-conducting properties of the filigree filaments manifest effectively when using the rechargeable Zieher LED light (page 44/45), which fits exactly into the cut-outs on the bottom side of the displays.

The “Textura” buffet cuboids are available in two sizes which, when used separately or stacked on top of each other, create different presentation levels on the buffet. Buffet platters and trays are reliably kept in position due to the non-slip features of this material. “Textura” lives up to the high demands of gastronomy and catering in numerous ways. The displays are indestructible and very light, washable and dirt-repellent. The countless interspaces create a light-flooded meshwork, which dries very quickly and is therefore resistant to humidity and mold. Also the raw material itself is something to be proud of. Polyethylene can repeatedly be 100% recycled without losing its outstanding characteristics. It is physiologically non-hazardous, odorless, tasteless and resistant to a variety of acids, oils and grease.

All information about the cooling elements “Chiller Base” can be found on pages 40 and 41.

The buffet platters “Industry 2.0” are available on page 49.

Buffet bowls in copper PVD coating are available upon request.

buffet bowl
glass, 8 mm thick, dark grey, oval, structured, delivery in strong wooden box

item	l x w x h in cm
5176	130x42x8

For buffet bowl item 5176 and platters of 80 cm x 40 cm and bigger.

buffet stand “Crossline”
galvanised steel, matt black (powder coating), rectangular, hinged beams on top

item	l x w x h in cm	l x w in cm (on top)
8325.23	70.5x33.5x23.5	59.5x22

For buffet bowl item 5704 (page 73) and platters of 42 cm x 42 cm and bigger.

buffet stand “Crossline”
galvanised steel, matt black (powder coating), square, hinged beams on top

item	l x w x h in cm	l x w in cm (on top)
8320.15	41.5x41.5x15.5	34x34
8320.31	49.5x49.5x31	34x34

Hinged beams at the upper side of the trestle can be adjusted individually to the shape of bowls and platters.

The buffet bowl item 5704 is available on page 73.

More dark grey glass bowls are available on pages 72 to 77.

Filigree understatement!

The filigree displays of the “Crossline” series feature an enormous stability due to their cleverly elaborated statics. These elements, which have been deliberately designed to have a plain and restrained appearance, unobtrusively blend into every ambience.

The rectangular base has been constructed especially for a presentation bowl made of dark grey glass, which impresses by its length of 130 cm. Hinged beams at the upper side of the trestle can be adjusted to the shape of the bowl individually. Hence also Zieher buffet platters of 80 cm x 40 cm and bigger can be installed. The supports are felt-covered, which minimises disturbing noise, evens out smaller asperities and provides for slip-resistance. Two more versions in square shape are constructed identically and are, in example, suitable for buffet platters in sizes 42 cm x 42 cm or 50 cm x 50 cm.

All trestles are made of galvanised steel and afterwards coated with a robust and scratch-proof powder-coating in a classy matt black. Therefore the stands are also suitable for outdoor areas. A second variant of raw steel with a rusted and sealed surface inspires by the charm of corroded metal and perfectly matches the industrial style of modern architecture! Low weight, space-saving storage due to its stackability, easy handling and quick installation are just a few advantages of the “Crossline” series. The matt black colouring of the stands can be combined harmoniously with many different materials. Thanks to the large variety of Zieher buffet platters, the arrangement of buffets can be redesigned again and again.

The dark grey glass bowls are available on page 72, our complete range of buffet platters is available on pages 46 to 54 .

“Skyline” - Manhattan-Feeling on the buffet

“Skyline”, Zieher’s buffet system, allows a maximum of flexibility for the most exclusive buffet presentations. Different heights enable you to install big buffet platters on the one hand - on the other hand, they can be stabilised by insertion into the corresponding serration. The square columns are made of highly-polished stainless steel and due to the standardised serration heights, they can be combined with the “Squareline” (pages 22 to 24) and “Curve” series (page 25).

The spectacular look that brings the silhouette of skyscrapers to mind, is available in a highly-polished version and for an intensified effect, also in black and white colouring (gold and copper on request!). The optionally available Zieher LED-lights are a perfect addition to the system and come in 2 versions: cabled and rechargeable (pages 44 and 45). In combination with light-diffusing tubes (page 44), they provide a perfect illumination of the system in various colours.

Buffet platters made of grey glass are available on page 53, black glass trays and glass steps on page 54.

“Skyline” - the original!

The buffet platters are available on page 53.

"Skyline"- the original

Buffet platters made of glass, laminated plastic and slate are available from page 46 onwards.

buffet stand "Skyline"

item	l x w x h in cm
2178.23	40x40x23.5

“Skyline” made by Zieher - Compare the original to copies of inferior quality!

Reasons to stick with the original:

- Different versions: polished, matt black and white (golden and copper on request)
- Highest Zieher quality and perfect accuracy in manufacturing
- Compatibility with other Zieher systems
- 100 % fitting illumination
- Massive stainless steel 18/10
- Design by Zieher in 2009

Cabled and rechargeable, battery-powered LED-lights are available on pages 44 and 45.

The “Skyline” buffet system allows a maximum of flexibility for the most exclusive buffet presentations. Due to the same serration heights, the “Skyline” system is combinable with our “Squareline” (pages 22 to 24) and “Curve” systems (pages 25). The different adaptors of the “Squareline” system may equally be used with the “Skyline” stands (exception: columns with 58 cm height).

Please note: Due to constructional reasons, the combination of “Skyline” with the walnut adaptor (item 4736) can only be illuminated with limitations.

Some exemplary displays can be seen here:

“Skyline” black, connector pieces acrylic glass satined (page 24), acrylic glass tubes (page 18), rechargeable LED-lights (page 45).

“Skyline” white, walnut connector piece (page 24), walnut tray (page 234).

“Skyline” highly polished, connector pieces acrylic glass black (page 24), platters black glass (page 50), acrylic glass tubes (page 18), rechargeable LED-lights (page 45).

"Squareline"

"Squareline" black, acrylic connector pieces satined (page 24), glass platters grey (page 53), "Lightning Buffet" tubes (page 44), rechargeable LED-lights (page 45).

The rechargeable LED-light (item 8150, optionally available, page 45) offers numerous fixedly pre-installed colours, as well as special programs like colour gradient and flickering-candle-effect. The compatible remote control (item 8151) allows the synchronization of up to 20 LED-lights at the same time and enables the change of the complete buffet-colouring by just pressing one button!

Alternatively and especially for fixed buffet installations, we recommend the use of the Zieher LED-lights with cable (item 8104, page 44). With this item, 5 lighting colours can be set by using stick-on colour-filters.

The connector pieces feature slots, so that the cables can be laid invisibly through the columns of the "Lightning Buffet". To do this, the detachable lids of the acrylic tubes have to be removed. If cabled LED-lights are used, it is recommended to lay down all components of a "Squareline"- tower next to each other on the table to facilitate the installation of the cables.

Please note: To illuminate the system, you will need one LED-light and one acrylic column in the fitting size (12 resp. 24 cm) for each "Squareline" stand. The acrylic columns are available in sets of 3 pieces (items 8120...) and can be found on page 44, the information on our LED-lights can be found on pages 44 and 45.

"Squareline" black, acrylic connector pieces black (page 24), glass platters black (page 50), glass steps black (page 54).

"Squareline" polished, connector pieces walnut wood (page 24), buffet platters made of glass (page 50-54), trays "Solid" walnut wood (page 114), glass steps transparent (page 54).

"Squareline", the buffet system with 1000 faces!

"Squareline" white, acrylic connector pieces black (page 24), glass platters black (page 50), glass steps black and glass trays black (page 54).

Our classic "Skyline" has been changed and advanced to become "Squareline", which now offers several new features apart from its pure design.

The stainless steel displays are available in two heights. Three versions - highly polished, matt black and white (golden and copper on request), grant the columns completely different effects! The "Squareline" towers can be stacked on top of each other by using connector pieces, which are available in three different versions. A 90° rotated arrangement of the stands increases the creative leeway tremendously and permits a buffet set-up at an angle.

Besides the technical aspect, the connector pieces are mainly a decorative element. They are available in glossy black as well as satined, light-diffusing acrylic. The third version is handmade from solid walnut wood in best quality. In connection with the various displays and buffet platters, countless possibilities for the creation of a buffet arise.

Optionally, "Squareline" offers the possibility of a 100 % integration of our "Lightning Buffet" - the full height of the columns will be illuminated from the inside. When using the satined connector pieces, their light-diffusing effect even enhances the spectacular sight. The system is based on the buffet classic "Skyline" (pages 16 to 21), both in construction and in form. So both systems can be combined quite easily.

Just let your imagination run wild!

"Squareline" polished, acrylic connector pieces satined (page 24), platters transparent glass (page 52), buffet platter (page 74) and glass steps transparent (page 54), "Lightning Buffet" tubes (page 44), rechargeable LED-lights (page 45).

“Curve”

Flexibility with a concept

“Curve” is made of 3 mm strong, galvanised steel with a high grade powder coating. This guarantees great stability and corrosion-resistance. The gaps between the bars were expressly chosen by the Milanese designer Itamar Harari to make the raisers completely compatible with the systems “Skyline” (pages 16 to 21) and “Squareline” (pages 22 to 24). The attractively priced “Curve” is therefore not only suitable as a starter version, but also as an optimal extension of existing systems.

During the development of “Curve”, special attention was given to the mobile usage. Thus all components can be stored in an extremely space-saving way. Simple and swift to install, “Curve” is the perfect equipment for outdoor areas, events and catering.

The "Zieher-System"

Zieher offers innumerable possibilities to present food optically appealing and highly flexible. When developing new buffet products, it is most important for Zieher to guarantee compatibility among the individual systems.

The "Zieher-System" with its different heights of 12, 24 and 36 cm or 8, 16, and 24 cm leads to a perfect composition of different presentation levels on the buffet, thus offering more flexibility in its arrangement. A wide range of buffet platters and trays of hardened glass, natural slate and laminated plastic in various styles are available on pages 46 to 53.

Thanks to the boundless possibilities, varying materials and designs, every buffet can easily be adapted to any accommodation. The system becomes part of the whole interior and assimilates harmonically into any ambience.

"StiXXX" NEW

The trays made of grey glass are available on page 165.
Buffet platters made of laminated plastic are available on page 48/49.

buffet display "StiXXX"
laminated plastic, 8 mm thick, dark grey, black intermediate ply, break-proof, scratch-proof, dishwasher-safe, antistatic, deburred edges, rounded corners, pluggable, 1 set (2 parts)

item	l x w x h in cm
8060.12	20x20x12
8060.24	20x20x24
8060.36	20x20x36

The indestructibility of laminated platters meets the advantages of plug-in systems. The plain displays are loosely stuck together, which ensures a quick and uncomplicated set-up as well as a space-saving storage of the single components. Thereby "StiXXX" meets in particular the hard requirements of daily use in the catering business.

The heights of the puristic displays match perfectly with other series of the Zieher-System, by what creates numerous possible combinations. Positioned as an "X" results in further presentation possibilities with a particularly slight and filigree alignment. The Zieher buffet platters and displays made of laminate are usable on both sides by the double-sided decoration. This exceedingly robust raw material is break- and scratch-proof, antistatic and dishwasher-safe and thus offers numerous advantages compared to other raw materials.

Special decor "Vintage" and "Industry 2.0" (page 49) upon request.

The complete range of buffet platters is available on pages 46 to 54.

“V12” combines modern and reduced forms with the precious material carbon. The elegant and three-dimensional look of the carbon fibre paired with maximum stability - “V12” adds high-tech to the buffet!

In connection with the huge Zieher assortment of buffet platters, “V12” provides a maximum in flexibility and best usage of buffet surfaces. Six different sizes of the “V12” displays offer a lot of possibilities for the individual composition of your buffet.

The standard heights of the carbon buffet displays of 12, 24 and 36 cm resp. 8, 16 and 24 cm permit an easy and simple combination with other Zieher systems. For an overview, please consult page 26.

stainless steel 18/10 brushed (pipe Ø 3.2 cm), with felt pad at the top (black)

item	Ø in cm	height in cm	PU
8080.04	7	4	2 pcs
8080.08	7	8	2 pcs
8080.16	7	16	2 pcs
8080.24	7	24	2 pcs

“Basic” is the simple and flexible solution to create different presentation levels. The high-quality columns made of matt brushed stainless steel (18/10) are a fitting base for buffet platters made of glass and other materials. The columns are fitted with felt pads on the top to protect the surface of glass platters and to level out any unevenness of the tables. The feet with 7 cm in diameter guarantee firm standing. The unobtrusive and unadorned design of the buffet stands puts food and drinks into the limelight.

“Basic” is available in four heights and can be combined with several Zieher buffet systems (pages 26). The carbon buffet stands “V12” presented here can be found on pages 28 to 29.

Please note: We do not recommend the use of “Basic” in combination with buffet platters made of natural slate. Due to the slightly varying thickness of natural slate platters, this combination might shake.

“Basic” & “Konkret!”

“Basic” & “V12” Carbon

Buffet bowls made of grey glass are available on pages 72 to 77.

Buffet platters made of glass are available from page 50 on.

The glass tubes of the “Flex” series are available on page 202.

buffet display “Luxor”
high-quality shell imitation, golden, washable, bottom side open, with 4 resin feet, not dishwasher-safe

item	l x w x h in cm
8221.08	38x38x8
8221.16	38x38x16
8221.24	38x38x24

The shimmering displays of the “Luxor” series enchant by the colour play of golden shades in variable nuances. This effect is created by high-quality shell imitations, which are arranged fan-shaped on a fibreglass base in sophisticated handcrafting. The honed and highly polished, multiple sealing with resin (Polyresin), emphasizes the pattern and the pearlescent shine of the gold-coloured discs and provides the surface with a striking depth effect.

The buffet cuboids are available in heights of 8, 16 and 24 cm and are therefore compatible with many other displays of the Zieher system. The 38 cm x 38 cm large bearing surface can be used directly for presentation purposes or as a basis for buffet platters or stairs of various kinds.

“Luxor” adds a touch of extravagance to both the modern and classic ambience, setting extraordinary accents in any environment.

The buffet displays "Classy" are made of translucent material and impress by their fascinating texture, which is reminiscent of Italian marble or alabaster. The precise workmanship of the cubes as well as the silk-matt surface, increase the fancy impression even more.

"Classy" is available in the Zieher system heights of 8, 16 and 24 cm and can therefore be combined in various ways. The open bottom side of the large displays allows an effective illumination by the optionally available LED-lights. With their different light colours, the LED-lights emphasize the appealing look and the interesting marbling of the material.

The small cube has no open underside and thus cannot be illuminated. The advantage of this construction lies in its high functionality. Its dimensions of 24 cm x 16 cm x 8 cm enable a positioning in 3 heights - a clever supplement to the squarish displays.

The baskets of the "Reef" series are available on pages 64 to 67.

It is possible to stage "Classy" with or without lighting, strikingly eye-catching or quite discreetly. Whether unobtrusive and modern or playful and opulent – "Classy" fits perfectly into any ambience!

The LED-lights are available on pages 44 and 45.

Closed on all sides, cannot be illuminated.

8230.16	38x38x16
8230.24	38x38x24

"Solid"

The buffet displays of the "Solid" series are, as all the other items of this series, made of solid walnut wood. They may be used as containers for cutlery or French bread, but they are particularly suitable for the elevation of the "Modul" walnut trays (page 130) or other buffet platters.

The filigree finger joints at the corners testify to precise craftsmanship of the highest quality and guarantee perfect stability!

The displays made of solid wood are visually appealing and fit perfectly into the existing buffet systems "Solid" and "Mercato" (pages 104 to 117).

Please note the care instructions:
not dishwasher-safe, do not immerse in water!

"Konkret!"

"Konkret!" - Distinct design for highest flexibility!

Plain lines, neutral shapes and two different colour variations put your food presentation into focus and offer a maximum of flexibility, while at the same time, using the available space at your buffet most effectively. Maximum reduced shapes in combination with the rough look of concrete – "Konkret!" blends in particularly well with modern architecture. "Less is more" is the motto!

Both variants of the displays (light grey and dark grey) are available in eight sizes.

A real eye-catcher is the double-walled XXL bowl in dark grey colour. The impressive diameter of 100 cm creates space for various drinks or chilled dishes (page 38).

The displays consist of a mixture of fibreglass and stone and therefore offer the deceptively genuine optics of concrete combined with low weight and high stability, which greatly facilitates handling. The puristic flair of that system will be intensified by using glass platters. Those and other variations made of laminated plastic and slate are available on pages 46 to 54.

The XXL bowl "Konkret!" is available on page 38.

“Konkret!”

The XXL bowl in dark-grey concrete look inspires by its enormous size and the low weight. In empty state, it can easily be carried by one person. A filigree, but extremely solid stand made of powder-coated steel forms the perfect basis. A round glass plate separates ice from melting water and at the same time creates space for the Zieher rechargeable LED-light (page 45), which allows the illumination of the ice in striking colours. No matter if placed on the buffet table or on the stand - this bowl will leave a permanent impression on your guests!

The separating plate is kept in position by a bearing edge integrated in the bowl.

The rechargeable LED-light item 8150 is available on page 45.

“Chiller-Base” - just stay cool!

The cooling elements by Zieher are an elegant and simple solution for a quick and flexible installation of chilled platters. They can be arranged either at different heights by using displays or freely positioned on the buffet table.

The flat bowls are available in matt black and white melamine and have been designed specifically for food whose presentation can be extended significantly by cooling.

The puristic form, the compact height of only 35 mm as well as the restrained colouring allow a stylishly discreet integration into numerous buffet constructions. Tailored recesses on the underside of the trays facilitate symmetrical positioning on most Zieher buffet systems. So a harmonious overall picture can be achieved quickly. Unobtrusive rubber buffers in the corners of the “Chiller-Base” ensure a non-slip and secure fit of laid-up platters in sizes starting from 42 x 42 cm (page 50 - 53).

The cooling pads have been tailor-made for the melamine base to provide for an optimal cooling surface by the perfect fit. The pads can optionally be flipped, depending on whether the black top or the white bottom fits into the overall picture more harmoniously. So, they are applicable inconspicuously, even with slightly translucent or satined buffet platters.

The attractive contrast of top and bottom can also be used on the laid table to deliberately set accents. Serving chilled foods becomes a visual highlight. The high-quality case made of black or white nylon fabric looks very noble and yet discreet. It is filled with gel, which remains malleable, even when frozen and thus allows an adaptation to a wide variety of tableware used.

"Lightning Buffet"

Bringing light into the darkness!

The illuminated buffet stands, in connection with platters made of natural slate, laminated plastic or glass (pages 46 to 54), make every buffet shine in a radiant new light.

The innovative LED technology does not radiate any heat and is powered by a harmless voltage. It is characterized by its longevity and its low power consumption. The standard light of the cabled LED is white, but thanks to the coloured plastic covers, the colour scale is enlarged to contain red, yellow, green and blue (page 44).

Alternatively, there is a rechargeable LED-light with several different functions available. Besides a fixed colour range and special programs, its particular feature is a remote control that enables changing colours and programs during use. For a detailed description of this LED-light and its functions, please check out page 45.

The columns made of satined acrylic (page 44) are available in seven sizes and feature a removable cover to enable the insertion of round bowls.

LED-light with cable, item 8104...

For permanently installed buffets which are not dismantled on a daily basis, it is recommended to use the LED-light with cable item 8104.

The standard light is white; the alternative colours blue, yellow, green and red can be chosen by using the precisely fitting plastic covers items 8105... (available as accessories).

A set consists of 3 lights and the matching power supply, which can be fitted with a total of 6 lights. All cables are white and the power cable of the light has a length of 3 metres, which is enough to stow away adapter and power supply safely and invisibly under the buffet table.

LED-light

Rechargeable LED-light with radio remote control:

The compact LED-light is controlled by remote control, which allows for a more flexible use of the Zieher "Lightning Buffet" and renders it independent from any power supply and spatial requirement.

This creates a lot of new possibilities for the buffet set-up: out in the open, next to the pool or in the middle of the room - without any troublesome cables and controllers that might get into the guests' or the personnel's way.

The necessary radio remote control item 8151 (to be ordered separately) rounds off the whole system in regard to function and handling and allows to choose the colouring within a range of up to 15 m without dismantling the buffet first. Due to many different colours and special programs, the buffet will fit into every kind of atmosphere. The lighting colour for the complete buffet can be changed by pressing only one button.

- 7 fixed colours and 3 special programs, manageable via remote control (white, green, red, blue, yellow, violet, turquoise, flickering-candle-effect, colour change, colour gradient)
- 3 different brightness-settings selectable (100 % - 70 % - 50 %, only adjustable directly)
- Fixedly integrated high-performance batteries guarantee a running-time of up to 20 hrs (at the lowest brightness-setting)
- LED-light waterproof up to a depth of 1 mtr.
- Remote control (to be ordered separately) controls up to 20 LED-lights simultaneously / range up to 15 m
- Charging device can be mounted on a wall and features a space-saving cable spool

Waterproof up to a depth of 1 metre!

Experience the "Lightning Buffet" - no matter where - you will be excited!

Slate is a unique and exceptional natural product. The surfaces of our slate plates have the typical cleavage. Every piece is unique. Small deviations in structure, thickness (10 to 15 mm) and weight of the platters cannot be avoided, as it is in the nature of the product. Also, there could be single inclusions of other minerals and fossils. These exceptional features give slate its precious and vivid appearance. Please note: Specific groceries, especially those that contain fruit acid (citric acid) may damage the surface in case of prolonged contact. Therefore we recommend avoiding any direct contact with edibles.

The charm of transience

Break- and scratch-resistant, anti-static and dishwasher-safe - these features of laminated plastic platters and the resulting advantages are convincing!

The buffet platters made of laminated plastic are available in a neutral, dark grey version as well as in two extraordinary variations. The antique white "Vintage" decor is reminiscent of weathered and white, discoloured old timber planks. It emphasizes the radiance of imperfection and perfectly fits the furnishings of the attractive country style.

Unplastered brick-lined walls, load-bearing structural elements made of steel beams, exposed concrete and the morbid charms of abandoned factory buildings create the ambience for the rust-coloured decoration "Industry 2.0". This is evocative of weathered steel surfaces, which are marked by decades of corrosion and fits perfectly into the industrial style of modern architecture.

All laminated buffet platters by Zieher have a dark middle layer and can be used on both sides because they are double-coated.

The buffet stands "Basic" are available on page 30, "Konkret!" on pages 37 to 39.

"Stablo"

“Stablo”- filigree versatility!

The buffet stands made of solid, brightly polished stainless steel impress by their high-quality workmanship and delicate appearance. Bowls and dishes appear almost hovering while slip-proof caps on the feet ensure safe support. The height of the stand (item 8016.01) is adjustable via extensions from 80 cm to 120 cm. Massive and bulky buffet tables become virtually redundant.

The buffet stand with its integrated ring (item 8016.01), allows for the presentation of plates and platters (max. dia. 21 cm on the lower level), but also for the insertion of extravagant wine coolers made of borosilicate glass. The coolers, positioned at an angle, may also be used with the “Stablo” stands in the sizes M and L.

The shape of the cooler corresponds to the already well-known Zieher glass cloches (pages 173 to 176), thicker quality borosilicate glass ensure the necessary stability! Due to its shape, any condensing water on the outside is drained off to the bottom tip. Dripping water can easily be caught by placing a small bowl on the floor or the buffet table. The integration of the optionally available Zieher rechargeable LED-lights creates breathtaking visual effects and puts champagne but also iced food in the limelight!

A three-staged buffet etagere is offering a lot of space for all kinds of food. It can be equipped with numerous trays and plates of the Zieher range. Anti-slip caps avoid annoying noise and ensure the safe grip of the trays.

Design: Uwe Kopp, Jörg Stricker

The etagere with suitable trays is available on pages 58 und 59.

Buffet bowls

Thermo-bowls "Shine"

The stainless steel bowls of the "Shine" series are double-walled and therefore have an isolating effect. This helps to prevent water condensation - even at elevated temperatures. Cold food stays cold and warm food stays warm longer.

The slim top edge appears elegant and filigree. The accentuated contrast between the highly polished outside and the unobtrusive finish on the inside (fine brushed stainless steel, ivory or taupe coloured) makes that series an eye-catcher. "Shine" is the perfect combination of elegance and subtlety. It is easily changeable to achieve a variation of presentations and it is effective due to its double-walled construction.

bowl "Shine"

The "Splash" - effect

Dynamics of movement – solidified to a statue! The bowls of the "Splash" series spread a very special flair by their playful optics. Whether used as fruit bowl in the big, for amuse gueule, culinary delights in the small or as decorative deposit place in all varieties, "Splash" sets a charming course at the table and for interiors. The bowls are made of solid pewter, manually assembled of numerous single components and elaborately refined. Knobbed feet at the bottom side guarantee a safe stand.

“Reef”

The projecting XXL bowl combines filigree structures with impressive dimensions. Made of premium pewter, countless fine ramifications combine to form a beautiful whole and thus provide necessary stability with low weight at the same time.

This design gives an unobstructed view of the contents of the bowl and forms a precious frame to stage particularly fruit or other delicacies in an extravagant way. The surface of the bowl is polished on the inside, while on the outside, it impresses with its coral-like structure.

Large numbers of single parts are casted from premium pewter and subsequently assembled in high-grade craftsmanship to give shape to these items. The inimitable pieces of art created that way are unique items, which inspire by the polished surface of the organic structures and the rounded tails of the meshwork. The products of the “Reef” series are genuine gems of dining culture! Whether there are bowls filled with bread or fruit in the focus of attention, high-quality textiles held together by extravagant napkin rings emphasizing the ambience, or the delightful shadow play of candlelight creating an atmospheric ambience – “Reef” turns any table into a fine dining experience.

Used as storage space for jewellery or standing on its own as a decorative sculpture, even off the table, the bowls find their application. Even carefully draped towels are also exquisitely presented in the bathroom or in the wellness area. The outside texture of the bowls differs within the series: whether smoothly rounded (page 65 to 67) or roughly structured with dark, patinated deepenings (page 64) - each variant has its own charm!

“Reef”

The glass platter is available on page 50, the “Flex” series on page 202.

Info:
Since medieval times, pewter has been used primarily for table top items and has been the most important raw material for a very long time. The popularity of pewter first started decreasing in the 18th and 19th century by the progressing development of glass and the increasing popularity of porcelain. Since then the usage of pewter has shifted mainly to decorative elements. Up-to-date pewter is 100 % lead-free and therefore uncritical when used for food.

“Roots, Matrix & Fakir” - Brass all of a piece!

“Fakir”

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination. Opposing in form and shape but still belonging together, the bowls “Roots” and “Matrix” as well as the exceptional displays of the “Fakir” series, add up to a harmonic overall composition.

The bowls “Roots”, a tight web of rootlike structures, and “Matrix”, strictly geometrically constructed of hexagons, could hardly be more opposing. Especially this aspect makes the combination of the two so interesting. Besides the presentation of bread and fruit on the buffet, these bowls fascinate as sculptures or decorative elements as well. An interesting add-on to the “Fakir” bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

All items are golden-coloured and partially dark patinated, further discolouration or oxidation is prevented reliably by the food-safe sealing of the golden parts.

“Unique”

The total series “Unique” is available on page 146 and 147.

Manufactured in old tradition!

Each of these high grade bowls is unique and almost completely handcrafted. At this, coloured glass is completely covered with crystal clear glass. This process awards the bowls with top brilliance and an impressive look. The handblown glass blank is modelled manually, whereby unique pieces are created which excite by their organic shape.

item	Ø in cm	height in cm
4810.01	39	9.5
4810.02	51	14

Please note:
Due to the complex production process, small
air inclusions in the glass are inevitable!

Ivory-coloured clamshells with a nacreous gloss grant these products their special appeal. In combination with crushed ice and the Zieher rechargeable LED-lights, the double-walled bowls produced in mosaic-look create fascinating effects, thus becoming the eye-catcher at the buffet. The double-walled construction provides insulating characteristics. This prevents the formation of condensation on the outside of the bowls to the greatest possible extent. More items of the series are available on page 180.

XXL-bowl made of grey glass

The rechargeable LED-light item 8150 is available on page 45.

buffet bowl		
glass, 8 mm thick, dark grey, round, structured, delivery in strong wooden box		
item	Ø in cm	height in cm
5704	82	15

This monumental bowl made of dark grey glass arches like a sculpture and melts optically with crushed ice to stage classy seafood or champagne in an opulent way.

In combination with the Zieher rechargeable LEDs, which perfectly accentuate the irregular structure of the glass, the presentation becomes even more dramatic! This effect is further intensified by the optical refraction of the ice.

This impressive bowl with a diameter of 82 cm can be placed free-standing on the floor by using the fitting rack (Art. 8213). But also right at the buffet table or arranged together with the stands of the "Crossline" series in different heights - these designer pieces know how to impress.

“Cave”

The glass version of the “Cave” bowl is available in two sizes. The soft tinge of this grey glass, which is manufactured in a traditional hand-blowing process, at first glance allows an unobstructed view onto the content of these shapely objects. They offer the fitting framework for fruit, nuts and nibbles as well as for tastefully arranged pasta or salad on a solemnly decorated table. The content of the bowls remains protected by the shell of glass, the amply dimensioned opening seduces to snap at a chance. These unique items also enthuse as a place to keep all kinds of accessories. “Cave” in a smaller version, made of china, is available on page 155.

4815.24	approx. 24	approx. 19	approx. 16.5

“Duplex”

The solid coloured grey glass of these unique handblown pieces serves as an unobtrusive background and suitable framework for perfectly arranged dishes. The bowls can be used on both sides. A soft recess is formed when the closed side is up for ambitious dishes. By using it upside down, there will be more capacity, which is ideal e. g. to fill in crushed ice.

The rechargeable LED-light item 8150 is available on page 45.

Useable on both sides!

4679.S	15.2	5.5

The handblown bowls made of grey-tinted glass are deliberately restrained in their design, yet they have been shaped to exhibit high versatility in their appearance.

The combination of the bowls with the gold-coloured stands of the “Somnia” series (page 8) creates an opulent and extravagant buffet staging, which is fascinating purely by its appearance. In connection with the anthracite displays of the “Spike” series (pages 10 and 11) they appear rather futuristic and modern. The subtle grey tinting of the glass bowls matches perfectly with the matt black or white surface of the optionally available silicone rings, which form a non-slip basis and increase stability.

The buffet displays “Spike” are available on pages 10 and 11.

The buffet stands “Somnia” are available on pages 8 and 9.

item	l x w x h in cm
2373	22x13x7

The trays and bowls of the “Artisan” series are fascinating and diversified at the same time. The inside with its perfectly polished surface creates an interesting contrast to the matt outside.

The handcrafted rim impresses by its irregularity and is crowned by a circumferential brass edge. The combination of hammered and plain surfaces, of massive stainless steel and brass, awards this series with that certain something.

“Artisan” is a series of contrast!

The plane surface of the trays facilitates the service and prevents unpleasant noise. When used at the buffet, arranged food can be presented in an appealing way and is accentuated by the reflection of the polished surfaces.

Stainless steel - refined!

stainless steel, polished

golden

black

copper

We gladly offer you buffet displays, bread baskets or cruet stands etc. with different surfaces. This option is feasible for almost all products made of stainless steel.

Highly polished as well as matt stainless steel can be finished in golden, copper or black colour using the PVD process. Price, minimum order quantity and delivery time upon request. Please ask us, we will gladly prepare an individual offer for you!

Advantages of the PVD coating:

- Food-safe
- Dishwasher-safe
- Better strength and adherence compared to galvanic refinement
- Brilliant colouring, colourfast and resistant against UV radiation

All items made of stainless steel can be powder-coated in all current RAL colours upon request. In contrast to PVD refining, this coating is not dishwasher-safe. We will be delighted to advise you!

2120.25PB	25.5x25x16.5

"Medusa" - risen from the deep-sea

These organically shaped bowls appear like creatures of the sea which float silently through the depth of the ocean. Even if the tentacles, modelled in numerous processing steps, appear very filigree, they still provide a safe base. Despite the solid stainless steel, these hammered bowls award a natural airiness and an almost floating impression.

"Medusa" offers the perfect setting for all sorts of seafood or extravagantly presented salads and desserts. Even as a decorative storage space, these bowls cut a good figure.

"Medusa" NEW

"Flower Tower"

Design: Itamar Harari

Floral shapes in a steely gloss!

Seemingly organic shapes in an interplay with the gloss and reflections of hammered and polished stainless steel make up the special charm of this product line. Different etageres and plateau plates (page 93) allow a visually harmonious yet flexible and diversified presentation of appetizers or desserts on the buffet. But also finger food, petit-fours, elaborately decorated cup cakes or a selection of chocolates in the guest room will find a convenient stage on these products. The ice cream/sorbet cups and petit-fours stands in various sizes make a nice complement and individually stage appetizers or a dessert.

The formal base for all products is a slightly arched and kidney-shaped miniature plate. On three levels, the buffet etagere combines seven small plates each to a presentation platform of floral appearance and offers space to present up to 21 delicacies in a compact and stylish way. The single levels are supported by a filigree trestle made of massive stainless steel, which in shape and construction, deliberately readopts the design of other Zieher etageres. So nothing gets in the way of a harmonic combination of the different product lines.

The table etagere consists of one level only and is therefore perfectly suitable for the restaurant service to present intermediate courses, antipasti or dessert variations. This product is the ideal choice - even as a stylish storage dish for different types of fruit or accessories of daily use.

The plateau plates are available on page 93.

The “Flex-Tree” enthuses by its versatility! On these trees, plain discs replace the fixed leaves. With a diameter of 5.5 cm, they offer sufficient space to equip the tree either with glass, porcelain or stainless steel miniatures. To be on the safe side, they can be placed on black or white anti-slip silicone pads. This reduces the sound emission and at the same time increases the stability of the used miniatures.

All trees are made of massive stainless steel and are accurately high gloss polished. The 8 mm thick foot is the perfect base and guarantees a safe stand.

Anti-slip pads made of Silicone are available on page 209.

2209.25	72	25

“Flower-Tree” - a tree to dream of!

On 13 resp. 25 levels, these trees offer the possibility to present and showcase finger food, petit-fours and other delicacies. Also a selection of jam in handy jars can be presented in an appealing way as well as fresh apples which, placed on the leaves, invite to take one. These masterpieces of craftsmanship also accentuate the beauty of each lobby by its decorative character.

The shape of the leaves is based on the already existing plateau plates and “Flower-Tower” etageres (page 89 and 93). Especially on the buffet, this opens up the option to arrange the buffet installations diversified, but nevertheless harmoniously and variable.

Single presentation plateaus, whose small plates are similar to those of the "Flower Tower" etageres (page 89), are available in four different heights and can be arranged individually. A firm stand for these is offered by the Zieher skewer plates made of dark brown marble, which are available with three and – for the use on the buffet – 24 bore holes.

Design: Itamar Harari

Etagere "DressCoat"

Food: Pâtisserie Walter
www.patisserie.de

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. The supporting rings with a diameter of 15 cm offer the possibility to insert not only plates and platters, but alternatively also bowls. Small black silicone rings keep inserted porcelain in position and prevent annoying clattering.

A very special aesthetic set-up can be arranged by using a combination of several etageres along with the biggest plate of the "DressCoat" series (page 148). Numerous presentation areas on a total of four different levels can be created by placing additional plates directly on the table. The diameter of 22 cm is more than sufficient to put different pralines, petit fours and other creations of confectionery into the limelight in an impressive way. In connection with the almost invisible tier stands, the porcelain tablecloths appear amazingly airy and playful by their floating look-and-feel. A buffet presentation with an elegant vibrancy, caused by the drapery of the "DressCoat" plates - that's where it comes into its own!

Even in the hotel room, the etageres can be positioned in an eye-catching way. Equipped with "DressCoat" or other tableware, small snacks, a selection of fruit or a sweet welcoming treat can be staged in an appealing way.

The entire series "DressCoat" is available on page 148, the series "Unique" on pages 146/147.

Elegantly served and presented in style - classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres are available with three or four levels and in two sizes. Petit-fours, desserts, chocolates or other delicacies are effectively presented by the classic mini format etageres. The larger version is perfectly suitable for scones and jam during Five O'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table. Numerous suitable inserts made of china, glass, and stainless steel are available on pages 248 and 249.

“Fingerfood-Tree”

Equipped with rings size M, the fingerfood-tree is perfectly suitable for presenting portion jam, e. g. Bonne Maman.

Design: Jochen Gromann

Please note:
The trees are being delivered with unbent branches; the bending has to be arranged before the first use!
The branches are made of stainless steel and will sag when loaded with food. This is why the branches should not be bent too far down when empty. In order to obtain a more favourable result, it is recommended to bend the branches one by one and to work in a circle from the outside to the inside.
The different attachments can be screwed onto the end of the branches, whereas the connection point should only be tightened up slightly. When using the rings or spiral, it is recommended to leave the connection point open by about half a turn, as they will turn into the apt position by themselves due to the weight of the attachments.

“Fingerfood-Tree”

Increased stability through larger base plate.

A number of suitable attachments and applications offer a lot of possibilities and form the basis for the chef’s imagination. The fingerfood-trees are perfect for patisserie creations, savory snacks in the form of mini-wraps or skewers, fruit with chocolate icing or just for jam at breakfast buffets. Furthermore, they can be placed on both buffets and bar tables with the solid base ensuring stability.
This extraordinary way of presenting fingerfood will surprise and fascinate your guests and will definitely leave a lasting impression.
The fingerfood-trees are furnished with 30 branches, which in turn can be fitted with 5 suitable attachments (page 102). Besides a clip that holds wooden skewers and a spiral for small wraps and waffles, we offer rings in three sizes, of which the medium size is especially designed for holding small jam jars (e.g. Bonne Maman).
Velcro straps to fasten the branches and a stout carrier bag are available from the accessory section and allow easy transport and space-saving storage of the bent trees.

Please note:
The Zieher cutting boards are oiled. The use naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wooden kitchen countertops to refresh the surface. The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed care instructions.

Further sizes and variations of the cloches are available on pages 118/119 and 172 to 179.

The high-quality cutting board made of fine end grain walnut wood is much more than a shapely and elegant kitchen aid. This product only unfolds its full potential in connection with the respective stacking rings and bowls. All parts have a groove at the top, which allows quick and easy stacking of the various items, even in mixed arrangement.

The milled groove of the cutting board serves on the one hand as a juice groove, on the other hand as a receptacle for various glass cloches. Thus aromatic types of cheese can be presented. A classic cloche made of handblown glass or an extravagant organically shaped cover made of highly durable borosilicate glass protects and stages the food at the same time. The stacking ring creates different levels of presentation when used in a clustered arrangement of cutting boards and trays. Also, the capacity of the bowls can be increased so as to present, for example, long baguettes.

Accurately fitting connection plates made of hardened, white or black coloured glass, can be slid exactly into the grooves of the stacked rings and thus work as buffet platters between the columns. This creates additional space and raises the flexibility of this system at the same time. Additional sizes of these plates, made of the same type of glass (page 50/51), offer a nice supplementation and allow an optically balanced buffet presentation.

The system blends in harmoniously into the walnut wood series “Solid”. Using further sizes of the glass cloches allow impressive arrangements on the buffet.

Cutting board, ring and bowl are sealed with high quality oils. Especially regarding the cutting board, this enables the simple refurbishment of the surface from traces of daily wear and tear.

4768.12	43x30x12
4768.16	43x30x16

Integrated rubber feet guarantee
stackability and safe standing.

The lateral cut-outs are suitable for
buffet platters with a max. width of 21 or 34 cm.

The “Mercato” buffet baskets made of walnut are inspired by classic market boxes, but they are superior in many respects. Finger joints in the corners for maximum stability, solid walnut in modern design as well as deliberately chosen dimensions of the heights and lateral cutouts offer numerous advantages. “Mercato” can be converted quickly and flexibly into a buffet display by the use of buffet platters. These platters (pages 46 to 53) can simply be laid on or pushed into the lateral cutouts of the baskets (max. width 21 or 34 cm). In addition to the mere presentation of fruit or baked goods, “Mercato” is also ideal for the coffee break or for placing miniatures of any kind.

The integrated rubber feet ensure safe standing and guarantee the stackability of the baskets. Bread, rolls and pastries remain crisp and fresh longer, as the slotted bottom plates allow sufficient air circulation.

The “Solid” bed tray is a nice addition to this system. Due to its integrated foldable feet, there is no need for displays for elevated positioning. For more information on the bed tray, please see page 114, for the fitting “Solid” breakfast buffet, please check pages 108 to 113.

Bread and more ...

The buffet displays "Solid" made of walnut are available on page 36, the trays of the "Modul" series on page 130.

tray stand "Solid"

walnut, food-safe sealed, not dishwasher-safe, with 6 rubber feet and 16 anti-slip feet on the top side, for 2 serving trays "Solid" items 4707.PB and 4740

item	l x w x h in cm
4747	46.8x12x54.5

... attractively presented!

"Solid"

The presentation of bread is not only important at the table, but at the breakfast buffet, too. The variety of baked goods wants to be put in the limelight.

Oblique displays for one or two wooden trays allow for a clear arrangement of various types of bread. With the help of a connector piece, two of these tray displays (item 4746) may be stacked and used on top of each other - the ideal solution for small buffet tables. A fitting cutting board including a crumb drawer and an exchangeable grate, a cutting board made of end grain wood as well as various bridges (to be found on pages 112 and 113) complete the series and provide the healthy and diversified breakfast with a new look.

Besides the flat bread tray you can also find a deeper version of this tray, which is suited especially for the presentation of rolls, buns, biscuits and pastries. A removable grate provides air circulation, freshly baked buns remain scrumptious longer. Two kinds of divisions (for the tray) offer space for several miniatures (pages 259 and 260) and allow for a flexible use of the system. A cutlery insert for the deep tray as well as an insert for slices of toasted bread round off the range.

Wood from the European walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item!

Suitable miniatures in sizes 5 cm x 5 cm or 7 cm x 7 cm are available on pages 259 and 260.

More items of the "Solid" walnut series are available on pages 230 to 241.

Glass inserts

Show cooking is a popular trend!

Whether using it for catering, at events or at the hotel's own buffet, the solid wood cutting boards by Zieher are pleasing eyecatchers and offer high functionality. The matching bridges can be equipped with bowls, putting everything tidily within reach for the work behind the buffet.

The dimensions of both cutting boards and bridges have been chosen in such a way, that exactly two boards and two bridges would fit into a regular transportation box. This is extremely useful when it comes to storing the items for their daily use and transportation for catering purposes.

"Solid" is entirely made of walnut, probably the most beautiful and most stylish of the European woods.

More items from this series can be found on pages 230 to 241.

Please note:
The Zieher cutting boards are oiled. The use of the cutting boards naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wooden kitchen countertops to refresh the surface. The removable grate for the bread cutting board (item 4733) can be ordered separately as a spare part (item 4733.R). The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed care instructions.

bridge "Solid"

Grooves to let water from the dishwasher run off

The cutlery boxes item 4720 (wood) and 4594 (melamine) are stackable in all commercial transport boxes in format 60 cm x 40 cm.

The cutlery-/napkin box for the table is available on page 235.

Each cloche on this page is handblown and handcrafted. In contrast to our cloches made of borosilicate glass (page 119), these items are made of a single massive glass drop. As a result there can be air inclusions and minor streaks which cannot be avoided. Each cloche is individual, the result is a harmonic enlivenment of the buffet for an attractive price.

More cloches made of glass are available on pages 172 to 179.

Cloches made of borosilicate glass are heat resistant, dishwasher-safe and very easy to handle for the guests. The main features of this material are a great resistance against heat and changes in temperature as well as a high breaking strength. Each item is manufactured by hand and therefore shaped individually.

The cloches "Cuspis" are available on page 172.

The cutting board is available on page 112.

“Podia”

Hotel cosmetics:
PAM Berlin Slipper & Hotel Supplies
www.pam-berlin.de

The buffet bridges and trays of the “Podia” series offer several advantages!

They are light but robust, flexibly usable and can be stored in a space-saving way. With its use as a display on the buffet, during coffee break or as a platter for fruit or little somethings in the hotel room - “Podia” offers multiple possibilities for use and flexible handling.

The tray in 1/2 GN format is especially suitable for different miniatures made of porcelain and glass. Slide-proof silicone coasters in different styles (page 209) guarantee a good grip during service.

All parts of this series consist of form-glued authentic wood veneer. The bridges are available in two types of wood. The light version harmonizes very well with mundane but also with rustic-style furnishing, the version with the black-brown stripes appears exotic and modern.

item	l x w x h in cm
4578	39x30,5x8,5

Suitable inserts made of glass and china (7 cm x 7 cm) are available on page 260.

“Bento Box”

“Bento Box” - flexible mobility

Serving guests at the pool, beach or on the terrace is often associated with longer walking distances for service staff. The “Bento Box” from Zieher has been designed especially for these requirements – all components are stackable. This way, they guarantee a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time.

Matt black melamine, modern design and subtle contrasts created by different surface structures, form the perfect setting for individual creations and popular classics such as burgers, club sandwiches or salads.

The box is divided into a main compartment for plates up to a diameter of 28 cm and a narrow side compartment for cutlery and napkin or miniatures made of glass and porcelain.

Optionally available inserts in the same design create additional space for side dishes, sauces or dips, when placed above the cutlery compartment. Up to four of these bowls can be placed in a bento box if required, and, with a correspondingly flat content of the main compartment, create a second level for even more flexibility.

The versatility of the individual components also becomes evident in the cover, which has decorative ventilation slots to dissipate steam generated by hot food. This lid can also be used as a tray, whose less finely textured inside has an anti-slip effect.

Box, insert bowl and lid are sold separately and can be combined as desired. This allows the restaurateur the adaption to his individual needs and helps to optimize additional purchases.

- Modern design with matt-black surface
- Dishwasher-safe
- Food-safe
- Odourless
- Easy-care

Real added value is provided by different boxes made from the same material. They are available as an insert for the bento box (page 122) and as a cutlery box in two sizes. In addition, three smaller variants have been developed, paying particular attention to the greatest possible compatibility with the trays. The boxes can be arranged in a variety of combinations on all melamine trays and thus offer enormous potential for a use at the Flying Buffet, in catering, at the bar or at the breakfast buffet. A selection of suitable combinations is available on the following pages.

The sturdy containers can also be used as plain elevations for platters and trays. Without additional efforts in procuring material, it is possible to arrange varied buffet presentations quickly and easily. Additionally available are different versions with three round or oval cavities. A big selection of suitable inserts made of glass or porcelain is available on page 262 and 263.

The spoon rest made of melamine is available on page 128, suitable spoons and skewers on pages 134 and 135.

Robust and elegant - melamine!

The advantages of melamine, such as dishwasher-resistance and food-safety, are particularly evident in daily catering use.

The matt black surface of the Zieher melamine articles generates a superb contrast to glass and porcelain and impresses by its pleasant haptics.

Modern design and the simple language of form of the trays, which are available in common GN formats, make up a pleasant addition to the articles of the "Modul" series (page 134). The bridges and spoon rests (page 128) can be used on all trays, non-skid rubber feet on the bottom side facilitate the service enormously.

The cutlery boxes item 4720 (wood) and 4594 (melamine) are stackable in all commercial transport boxes in format 60 cm x 40 cm.

“Modul” - walnut

Wood from the European walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood’s warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in everyday use.

Suitable inserts for the bridge “Modul” are available on page 136.

“Modul” - walnut

“Modul” is a flexible product ready for “Flying Buffet” service - and therefore ideally suited for use in the catering area. The slim, oblong format of the base tray, which is available in three sizes, renders the often cumbersome service at crowded standing receptions barrier-free and uncomplicated. The trays can be variably fitted with glass or porcelain parts, a bridge for glasses or a spoon bench for 4 spoons. When using two spoon benches, 4 long skewers can be placed safely on top. Every single piece has been specially developed for this catering system. Trays, bridge and spoon rest are available in 2 variations: The series “Modul” is manufactured from walnut wood, which is probably the most precious of all European hardwoods, and from melamine in a modern matt-black design (pages 132 and 133). Suitable miniatures made of china and glass (pages 134 to 136) can be fitted to all trays! Shapely anti-slip mats made of silicone (page 137) facilitate catering to a great extent.

The buffet stands “Antique” are available on page 42. More items made of walnut are available on pages 104 to 119 and 230 to 241.

"Modul" - melamine

The advantages of melamine are manifold. It is dishwasher-safe and food-safe, which becomes evident in daily catering use! The smallest tray is 53 cm long and is therefore partially compatible with existing GN-systems. All trays are stackable.

Besides the merely technical properties, the flat black trays differ from the variant made of walnut by their modest design and modern appearance.

base tray "Modul"		
melamine, black, surface matt, food-safe, dishwasher-safe, not suitable for microwave and combi steam oven		
item	l x w x h in cm	PU
4581	53x28x1.8	2 pcs

Non-slip covers in matt black:
Classy look - great benefit!

The matt black look and velvety texture of these mats create an interesting contrast when used in connection with the trays made of walnut. In combination with the "Modul" melamine trays they become almost invisible.

The mats made of food-safe silicone are extremely skid-proof and facilitate the serving considerably. No clattering, no shifting of porcelain bothers guests and staff!

To clean the mats, please use a moist cloth with some detergent and wipe off with a cloth and clear water.

non-slip mat

silicone, black, food-safe, temperature resistant (-40 °C - +230 °C), for walnut trays "Modul" items 4721, 4722 and 4723, can be cut to fit melamine trays "Modul" items 4581, 4582 and 4583

item	l x w in cm	PU
4660.01	42.6x20.6	6 pcs
4660.02	65.1x20.6	6 pcs
4660.03	87.6x20.6	6 pcs

Non-slip coasters for single miniatures are available on page 209.

The mats are made to match the size of the walnut trays Art.-Nr. 4721, 4722 and 4723. With a sharp cutter knife they can be adapted to the size of the melamine trays Art.-Nr. 4581, 4582 and 4583. We recommend to use a cutting mat as well as a metal ruler.

VENTA by Büchin Design has developed an elegant buffet furniture programme for the high demands of the hotel industry and for exclusive events. It is equipped with a number of technical features to keep food hot or cold.

The tables are equipped with castors and can therefore be used very flexible in different rooms. They can be stowed under each other or dismantled and stored in trolleys in just a few simple steps.

The modular buffet table system STAGE can be assembled and disassembled in just a few easy steps, without the need for any tools.

All four tables fit in one trolley. The individual parts are safely stored, each part has its own place.

MODULAR BUFFET SYSTEM

Adjustable heights
Movable by castors
Nesting Storage
Trolley Transport System

total buffet length: 536 cm

all tables in a row / adjusted at the same height

Zieher and VENTA cooperate in the area of buffet presentation. The Zieher table-top buffet elements harmonize excellently with the modular buffet system "STAGE" of the VENTA brand.

All details of VENTA system you will find at: www.ventadesign.com

The buffet systems by Zieher were developed to put the most exquisite products into the limelight in a very effective and diversified way.

The section "displays" shows that they are not limited to the use with food: high-class jewellery and watches, as well as other kinds of luxury goods find a representative stage with the Zieher display systems.

The discreet and classy design never pushes for attention, but offers a unique and distinctive means of presentation, that puts the product at the centre of attention.

China, glass
and more!

“Pulsar” – Sparking Impulses!

This gourmet plate, predestined for appetizers, intermediate courses or desserts, excels through its exceptional shape and thrills the beholder by the exotic touch it has been awarded by its designers.

The surface is reminiscent of the playful waves created on a smooth lake after a stone’s throw. The viewer’s gaze purposefully wanders to the centre of the concentric design and this way, the served dishes come straight to the fore. Be it for selectively arranged sauces or dips, crunchy crisp caramelized nuts or edible flowers, even the wave troughs of the plate’s rim offer numerous possibilities to stage dishes effectively. “Pulsar” is made of high-quality hard porcelain in a surprisingly soft composition and is available glazed in glossy white or in matt black.

The fitting cloches are based on the extraordinary design of the “Nostalgic” glasses from the VISION series. The language of design of the wine glasses recurs in the cloches that are mouth-blown as well – the perfect combination for a balanced and harmonic staging on the table. These exclusive covers are available in two sizes: The small version precisely spans the inner circle, the bigger one additionally covers the first wave.

glass cloche

Borosilicate glass in its most beautiful shape!

The primary design element of the series “Cuspis” is a glass ball studded with fine spikes. The cloches with fitting porcelain plateau plates/ bowls are available in three sizes, the inspiration for their shaping was derived from the nut of the oak tree. The star-shaped handle is located at the top of the cloches and allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain bowls is reminiscent of acorn caps. The bowls can be used on both sides. When used as a plateau plate, the dish moves closer to the guest. Used as a bowl, it offers space for gravies, sauces and more while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Shapely amuse-gueule spoons as well as an extraordinary honey spoon, which can also be used as a skewer, complete the “Cuspis” series. These items are available on page 200.

If the item is used upside down as a plate, the two rings on the plate’s underside can be used to separate the prepared dish into different sections, the cloches of the “Cuspis” series may also be used with it (4940.10 on the inner ring, 4940.25 on the outer ring).

4389.25PB + 4940.10

“Unique”

“Unique” is produced in centrifugal casting. Besides the individual decor, this production method entails a slight variation of size, strength and shape of the items. Also, some air inclusions are possible. That’s exactly what awards these unique pieces their special charm.

“Unique”

The plates and bowls of the “Unique” series are made of clear glass, which is awarded an inimitable character by adding black and white glass components. This creates individual streaks and swirls, which assemble to highly exciting patterns.

All items of this series are available in black or white. The underside of the plates as well as the outside of the bowls are blasted, which results in satined optics and pleasant haptics.

With the black imbued versions, this refinement intensifies the contrast; with the white ones, it appears more restrained by the matting of the backside – the decor retracts in an unobtrusive way. “Unique” presents - in shape and decor - a real counterpart to the uniform character of industrially manufactured mass products and proves to be as unique as its users.

“DressCoat” was created by the glass and porcelain designer Nadine Podewski. The elegant language of design is reminiscent of set tables, the creation of the plates and bowls respectively is characterised by the apparently free falling drapery of table cloth. This creates a seemingly weightless, almost floating effect. The slightly concave shaped surface offers space for artfully decorated dishes and reliably avoids the sloshing of sauce.

“DressCoat” is available in five different sizes. Besides the main application as a plateau plate, each item can also be used as a bowl. The falling folds add up to an exciting game of shapes - in particular if used as a bowl.

With “DressCoat” you will dish up delicacies!

The etagere 2212.30 is available on page 94.

Bedded on glass, wood...

The variants of the “Donna” pillows are made of frosted glass and oiled walnut and despite their hard and massive raw materials, they surprise by their pleasantly soft and velvety feel. One just has to touch the softly curved forms of this hand charmer. The version made of solid walnut, one of the finest European types of wood, has its own appearance. The sealing with oils emphasizes the striking grain of the wood and gives the surface a silk-matt gloss as well as amazing haptics. Whether used as a fruit bowl, as a place to keep accessories or as sculptural decoration - “Donna” seduces in every material!

“Donna”

The elegant porcelain-pillows “Donna”, which are inspired by a woman’s curved back, are definitely not made to sleep on, but offer an ideal presentation area for high-end dishes or present a sculptural place to keep various items of everyday life. Even when used as a soap dish, the medium pillow made of glass or porcelain cuts a fine figure. The version made of porcelain is available in two sizes and stages every dish and surprises the guest. Especially the small pillow can be used perfectly on the buffet and offers an exciting contrast to conventional forms of glass or china.

“Collina” provides almost unlimited possibilities. Whether in the lobby or on the buffet, for the presentation of fruit and pastry or as an exclusively decorative element, this series is versatile. The smaller version of the plate, which is divided into nine parts, is perfectly suitable for various antipasti and delicacies from the patisserie. A selection of fruit can be put in the limelight beautifully by using platters with either three or four deepenings.

The possibilities when considering private use are numerous, too. “Collina” may be used as a fruit bowl, but it is also suitable as a means to neatly organize objects of everyday life, such as the mobile phone or keys.

In order to protect the sensitive surfaces of furniture, every plate comes with feet made of rubber, which can be stuck on if needed. The rigorously geometrical structure permits the assembling of several plates, which allows to enlarge the effective area of the platters in both length and width. When looking at the surface from the side, the arrangement has the appearance of a desert landscape arbitrarily formed by the wind.

biscuit china, white, inside glazed, opening: Ø approx. 8 cm, in black gift box

item	Ø in cm	height in cm	PU
4375.01PB	approx. 11	7	1 pc

Like the shell hides the pearl, the porcelain bowl “Cave” conceals precious delicacies within its hard shell. At first sight, this porcelain piece only partly reveals its interior. “Cave” consists of intricately worked hard porcelain and captures by its soft shape and the velvety haptics of the unglazed outside. Touching the cave-shaped bowl, it feels almost like a palm stone made of white gold, having a soft appearance with delicious contents.

“Cave” is predestined for an use at cocktail and hors d’oeuvres receptions or at the flying buffet. The miniature bowl can be carried comfortably and perfectly fits in the palm of the hand.

Stay cool!

Serving chilled food is primarily a technical challenge with certain dishes or intermediate courses. With Zieher’s two-coloured cooling pads, this necessity can be met in a sophisticated way, also in terms of visual appearance. The wrapper made of black respectively white nylon fabric appears classy and unobtrusive. The pads are filled with gel which remains shapeable, even when frozen and thus allows an adjustment to the tableware used.

The cooling pads are also applicable on the buffet. More information is available on page 40 and 41.

The glass version of the “Cave” bowl is available in two sizes. The soft tinge of this grey glass, which is manufactured in a traditional hand-blowing process, stages the content of these shapely objects.

They offer the fitting framework for fruit, nuts and nibbles as well as for tastefully arranged pasta or salad on a solemnly decorated table. The content of the bowls remains protected by the shell of glass, the amply dimensioned opening seduces to snap at a chance. These unique items also enthuse as a place to keep all kinds of accessories.

SELECTION **A.**

“SelectionA.” gives creative chefs the opportunity to present their food in many different ways in order to leave a mark on their guests, both by taste and looks. The dish moves closer to the guest and single parts almost seem to be floating freely in the room. The diversity of variations of this series, when combined with other items, is nearly unlimited.

The series consists of different plates and bowls made of porcelain. So-called charger plates are available in two versions, which can be used on their own or in combination with various attachments. These form the basis of the system. Shapely rings made of silicone - available in two sizes, in black or white - allow for a piling of different accessories and are completely slip-proof. Surfaces are matt structured and form an interesting contrast to the shiny gloss of the porcelain. These pieces can be consciously used as design elements or, as well, be assembled almost invisibly. There are no limits to the chef's imagination.

A third ring outside the series (page 212) has been designed to hold test-tubes, the ribbed surface structure ensuring easy insertion of the tubes.

5762.40	40x15x2

Please note:
due to the material properties, minor imperfections and air inclusions may occur around the edges.

The cloche item 4880.30 is available on page 176.

The absolutely stunning plates of the “Ice” series are made of glass chips which are coalesced and compressed. This procedure allows white and transparent materials to form a most charming pattern. The horizontal look of ice floes paired with the layered structure at the edges brings to mind an ice plate freshly cut from a frozen, wintery lake.

Bevelled edges provide an elegant look as well as easy handling. No matter if it is used as a charger plate or as a sushi plate, for the presentation of a variety of cheese or the staging of desserts, muted colours combined with a clear structure create a perfect basis for stylishly putting artful creations in the limelight.

Making precious materials more precious - whether it is glass or china ...

"gold"

"platinum"

"bronze"

... everything is possible!

Large-scale coatings on glass and china in precious colours enrich every dining table and create luxurious accents!

In order to achieve this decorative style, available in gold, platinum and bronze, the precious metals are burnt onto the varnish at more than 880 °C and as a result the coating is dishwasher-safe. Cloches made of glass can now be used for serving warm dishes as well and condensing water remains invisible to a great part.

By using resistant precious alloys, we obtain a connection to the varnish, which is strong enough for the products to become dishwasher-safe. Test series by the "Institut für Werkstoffe Heraeus Precious Metals GmbH & Co. KG" have proven the dishwasher resistance of the decor.

Partially, the possibilities of coating are dependent on the form of the product. Requests are being tested in each case according to their feasibility.

The bronze colour is a special case, since it presents itself in numerous interesting shades of colour. Depending on the shape of the product, especially when looking at immersions, the colours can vary from gold-bronze shades to blue-violet ones which blend into each other and create unique effects.

Specific patterns/orders are usually executed quickly.
Please do not hesitate to send us your special request!

Satin-coated logos applied before the refinement still remain visible.

colour gradient "bronze"

The complete information on refining stainless steel is available on page 80.

Please note:

Products are dishwasher-resistant. Please take note of the instructions given by dishwasher producers and detergents in order to avoid damage.

Since the coatings are made of precious metals, the use in microwaves is not recommended under any circumstances.

“Cuspis”

The cloches and porcelain coasters of the series “Cuspis” are inspired by the nuts of the oak tree. The ball-shaped handle at the tip of the cloches allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain coasters with its distinctive texture is reminiscent of acorn caps. The coaster can be used on both sides. When used as a plateau plate, the dishes move closer to the guest, while the filigree glass cloche protects the presented delicacies and puts them in the limelight. Used as a bowl, it offers space for gravies, sauces and more.

The glass cloches, which are available in 10 sizes (diameters 5 cm to 30 cm, pages 174 to 176), delight by their high quality and unusual form! The presentation of fine truffles, an exclusive choice of cheese or simply a single praline – there is a fitting size for each purpose!

The lightweight cloches by Zieher are heat resistant, dishwasher safe and very easy to handle for the guests. Each item is manufactured by hand and therefore shaped individually.

The raw material for these items is borosilicate glass, which is mainly used for laboratory dishes. Its main features are a great resistance against heat and changes in temperature as well as a high break resistance. A wine cooler of the same design is available on page 57.

The saucer "Solid" items 4734... are available on page 176.

Each cloche is handblown and handcrafted. In contrast to our cloches made of borosilicate glass (page 176), these items are made of a massive glass drop. Therefore air inclusions and minor streaks cannot be avoided completely. Each cloche is unique, the result is a harmonic enlivenment of the buffet for an attractive price.

Example of application: Presentation of a premium beer type

Little somethings perfectly staged!

The thick bottom of the hand-blown bowl leads to a blow-up effect when used as a cloche!

"Star" – mini

Uniqueness in practice

"Many decanters provide a fast but completely unbalanced development of wines because the wines develop only by a macro-oxidation on the surface. It's more balanced and harmonic to implement the necessary oxygen in a very soft and gentle way.

The filigree rays of the centric star animate the served wine to a very soft enhancement. During the slewing, the oxygen is mildly folded in and integrated into the wine. Thus the wine starts to develop on its own terms and not – as with other decanters – just on the surface.

The swirling of the wine is a fascinating view and helps in a three-dimensional development to harmonize the acid and to synchronize different levels of aroma.

By using borosilicate glass as raw material for this decanter, which sticks out by its extremely smooth surface, another highly pleasant effect is that the aromatic molecules aren't expelled from the wine but allowed to present themselves completely in the wine glass. The aerated wine becomes extremely balanced, carefully crafted and centered. An additional value which is simply priceless!"

Silvio Nitzsche, WEIN|KULTUR|BAR Dresden

The small "Star"-mini is particularly suitable for the decantation of open wines or small bottles. The ideal charge to provide a maximum of oxygen is 0.375 ltr. The reduced size allows to decant white wines and still to temper them in wine coolers. Also for dessert wines, the staging of innovative high-end cocktails, flavoured spirits, to the point of exotic juices – this unique product is the perfect solution.

Please note:
The ideal charge to provide a maximum of oxygen is 0.375 ltr.

"Star" - the art of decanting

New

The decanter "Star" synergizes the aesthetics of an unique copy with the functionality of a professional tool for vinophile pleasure.

Created by glassblower Detlef Greiner-Perth and presented by Silvio Nitzsche, "Star" is possibly the most fascinating wine carafe in a long time, due to its exceptional design.

The individual star raises each carafe to an exceptional piece and forms a fascinating basis for discussion with interested guests. This artistically designed centerpiece becomes a unique element in a complex process due to numerous processing steps. This is pure luxury in our uniform world because not a single "Star" is like another.

8014.20PB	15/23	20	1 pc

The wine glass series VISION is available on pages 191-197.

Idea: Detlef Greiner-Perth

The big "Star" has a recessed grip in the bottom, which on the one hand improves the swirl during filling and slewing, on the other hand it ensures good handling and a secure hold when serving the wine. The collar, which is included in the gift box, is made of matt black silicone and also allows an inclined positioning.

recessed grip at the bottom for better handling!

Care instructions decanter:

Looking at "Star" and "Eddy", almost everybody who already gained experience with decanters, will intuitively ask how to clean them. Many decanters have the nature, in particular when used for red wines, to absorb the colour pigments and to show light grey or brown surface layers after a certain usage. Most of these carafes have microscopically seen a rough surface, which leftovers of the wine might adhere to and cause an unattractive appearance of the decanters. With our decanters made of borosilicate glass, this effect might appear after a much longer period due to the extremely smooth and repellent surface of this high-quality laboratory glass. In case it actually happens, these traces can easily be removed by using a mixture of citric acid and water. After a 2 hours residence time, the problem should be solved. The optionally available drying rack (suitable for decanters "Pebble", "Eddy" and "Star") made of highly polished stainless steel, facilitates the drying of the decanters after rinsing (page 185). Non-skid caps, made of matt black silicone, ensure a safe stand and keep the decanter in the desired position.

Spot on! – basic ring with LED-light

This new version of the basic ring for the "Eddy" (item 4883) and "Star" (item 4947) decanters offers the chance to stage served wine through light.

The rechargeable Zieher LED-light (item 8150) fits exactly into the cavity at the bottom part of the ring and thus can put the served wine inside the decanter into the limelight. In the beginning, the illumination effect in the filled decanter can be very unobtrusive when serving strongly pigmented red wine. But at a decreasing level, the play of light and colours becomes more and more intense in an exciting way. These accessories are also suitable to illuminate glass bowls and – platters. In combination with the ring, the LED-light and remote control still maintain their known options, such as adjustable brightness, 7 different colours and various colour-changing functions. Detailed information about the Zieher rechargeable LED-light can be found on page 45. All components (ring, light, remote control and charger) are available either as single parts or as a set in a gift box.

Attention: The chargers in the gift box are equipped with a EU plug, chargers with US resp. UK plugs are available upon request.

The small "Eddy" - mini is perfectly suitable for the decanting of wines by the glass or little bottles. Thereby the ideal charge to maximise the content of oxygen is 0.375 ltr. The compact design is perfectly suitable to decant white wines first and then to temper in a wine cooler. By the extravagant character of these design elements, even high end cocktails and other exotic creations can be staged appropriately.

"The decanter "Eddy" defines the world of extreme wine instruments in a completely new way. Their functionality has seldom been united with an aesthetic language of design in such a spellbinding way. The matchlessly fast-paced development of structure, which all wines undergo in that respirator, is really fascinating! Once rotating in this texture stimulator, due to the thousand-fold swirls at the conical indentations, the wine goes through a process, whose behavior is equivalent to an oxidation reaction of several hours, within a few seconds."

Silvio Nitzsche - WEIN | KULTUR | BAR - Dresden

The volume of the big "Eddy" has been dimensioned in a way that, with a filling of up to 1.5 litres, the extension of the wine's surface becomes as large as possible. Due to the flattened bottom, this respirator stands safely and straight, the collar, which is included in the gift box, is made of matt black silicone and also allows an inclined positioning.

For further information about „Eddy“ please have a look at:
www.zieher.com/en/highlights/eddy

The basic material for this development worker for wine is extremely robust, high-grade borosilicate glass. This type of glass, which stands out due to its dense structure, extraordinary transparency and hardness, is the precondition for the implementation of the introversive swirl elements. In an interplay with light and the contained wine, they also create visually interesting colour reflections and almost graphic effects.

4891.PB

4884.PB

Design: Silvio Nitzsche

"Pebble"

Design: Itamar Harari

While filling the decanter the wine flows, due to the shaping of the neck, along the complete inside area, which maximizes the surface of the wine and thus contributes to the aeration.

The three swales at the bottom serve to further swirl the poured wine, which results in a gentle but nevertheless very effective aeration. This effect can be intensified by warily swinging the filled decanter. Furthermore, the three bulges at the bottom provide a wiggle-free and safe stand.

The diagonal cut of the neck and the accurate polishing of the raw edges minimize the formation of drops while pouring out.

The optionally available drying rack made of solid stainless steel, facilitates the drying of the decanters after rinsing. Non-skid rubber caps ensure a safe stand.

"Pebble" is made of high-grade, lead free crystal glass.

The unfilled decanter inspires by the brilliance of the glass alone and the resulting light reflections.

These products are hand-blown with perfect craftsmanship. The sensitivity and long-year experience of the glass blowers become apparent in particular in the creation of the bottom, which is extensively dimensioned and separated into three convex segments.

skilfully handblown

VISION

"You have never seen wine like this!"

Silvio Nitzsche, WEIN | KULTUR | BAR Dresden

The life and work of Silvio Nitzsche

"Of course, there is life without wine, but who wants that?"

During a career as a sommelier, which has spanned more than twenty years, Silvio Nitzsche has looked after both guests and wine in some of the best Michelin-starred restaurants. Some of his high-profile positions have been:

- Sommelier at "Dieter Müller Restaurant" (19.5 GM, *** Michelin), Bergisch Gladbach / GER
- Sommelier at "Erna's Elderberry House", Oakhurst / CA, USA
- Assistant Restaurant Manager and Sommelier at "Speisemeisterlei" Restaurant (18 GM, ** Michelin), Stuttgart / GER

Silvio Nitzsche has now found a new home in the city of Dresden, where he has worked as a sommelier for over ten years at WEIN | KULTUR | BAR, which he opened there. He and his team have managed to establish a wine bar that many wine enthusiasts consider to be one of the best in Europe. He has succeeded in creating a place where wine is a permanent feature.

In 2018 Silvio Nitzsche has been voted one of the ten best sommeliers in Germany by the magazine "Der Feinschmecker".

www.weinkulturbar.de

Filigree craftsmanship meets innovative design

"Zieher glasses are all about top quality craftsmanship, which is created in one of the most innovative and best glass-blowing workshops in the world. Each glass is unique and has been created from lead-free crystalline glass, using a traditional glass-blowing method.

As well as having a perfect, highly sophisticated and fascinating design, the glasses in the VISION range are guaranteed to provide maximum aroma and optimum development of the wine. However, it is particularly the fascination of the light, the colours and the visual depth, that makes it impossible to tear your eyes away from the glass, because: You have never seen wine like this!"

The vision of simplicity

"No distinction is made between red wine or white wine glasses in this collection - the glasses are simply theme-based or character-based. The names of the glasses clearly explain what they are used for: You intuitively reach for the glass, which in the best way presents the flavours of the wine you particularly wish to emphasize. If you want a powerful wine to be more harmonious or a touch more lively and fresh, you pick the glass with the designation, that mirrors your requirement best."

Silvio Nitzsche

The Zieher Food - VISION

The VISION series is predestined for wine and has been created to perfectly represent its different facets. In addition to this, the glasses offer an extraordinary platform for small delicacies or complimentary dishes from the chef. The harmonic wavy shape of the bottom creates an eye-catching ring when filled with spume or liquids. The depression in its centre provides space for amuse bouches or decorative highlights.

For distributors: Sample case VISION item 5661.01. We will be happy to inform you!

Get to know VISION! The glasses FRESH, STRAIGHT, INTENSE and BALANCED are also available in a single package.

For extremely fresh white wines, Prosecco or any variety of sparkling wine, light rosé wines

The wide opening of this glass allows the carbon dioxide in sparkling wines to gently evaporate. This prevents the aroma perception of the nose from being broadsided by a concentration of carbon dioxide, which is often the case with classic sparkling wine glasses. The glass provides the palate with a centralised aroma concentration, which allows the wine to express its exquisitely lively, refreshing and light character. The development of the flavour-carrying, freshly acidic structures is encouraged, and individual features of the bouquet are brought into focus.

For pure grape varieties and fruity / aromatic red and white wines

The characteristics of the wine are reflected harmoniously one-to-one in this glass. The authenticity of the aroma culture of a grape variety is made discernible and presented in an unpretentious way, which makes this glass particularly suitable for all types of authentic grape varieties such as Riesling or Sauvignon Blanc. Light, aromatic red wines are transformed into pure drinking enjoyment.

For opulent, great growth, powerful white and red wines, rustic, acidic white and red wines, young and middle aged Bordeaux wines

The tapering neck of this glass intensifies the aroma molecules, which are positively hurled out of the glass. The acidity is harmoniously structured in the fruit bouquet and completes the opulent overall sensation of strength. The glass provides intensive oxidation, making it ideal for any wine that can be decanted or served in carafes.

For carbonated mineral water and soft drinks

Complementing the wine glass series, this glass is the tasteful companion for a stylish presentation of carbonated mineral water and soft drinks. The carbon dioxide is harmonised and the acids and mineral elements of fine sources are delivered to the tongue and the palate in a refreshing way, without being intrusive.

For white and red Burgundy, great Piedmontese wines, highly complex but sensitive white and red wines, extremely opulent rosé wines and old vintage champagne

A perfect glass for wine that is not for decanting due to its sensitive structure, but still requires a great deal of air. This crystal emanates pure consonance. Even with discordant wines, it succeeds in creating a concentrated and highly elegant impression. This glass turns wine into a complete aromatic experience, without overdoing it.

For fortified, sweet and dessert wines and any type of distilled beverages

A glass for the majority of heavyweight or high-proof drinks. The small presentation surface ensures that the wine or brandy does not become overly concentrated, so that the heavyweight aromatic elements are released in a nuanced way. Due to the glass having a narrow opening, the nose cannot go in very far, which prevents the perceiving mucous membranes from receiving a barrage of alcohol.

Feedbacks:

Laurens Mauquoi, Germany
www.der-weinsnob.de

"Wine glasses from Zieher stand for absolute top quality. In my whole career as a wine blogger, I have never found glasses which accentuate the flavours like VISION does. My absolute recommendation!"

Sebastian Schaan, Germany
www.sommelier-blog.de

"The waveform of the bottom and their shapes make the VISION series an excellent partner of the high-end gastronomy. Because of the respective glass, me as a sommelier can have enormous influence on development of the desired flavours."

Thomas Dötzer, Germany
www.doetzers.de

"From the very beginning, we have been excited by the appearance and the design of the glasses. But after the first degustation, we have been enthusiastic! We did not want to stop tasting. The wine simply gains a different character. The BALANCED glass makes decanting superfluous - and a Grappa out of the RICH glass is simply a great experience!"

Walid Romaya, USA
[instagram.com/princeofwine](https://www.instagram.com/princeofwine)

"As a wine influencer, I have tasted thousands of wines in all glass shapes and sizes. The INTENSE wine glass is the perfect balance of beauty and functionality. It is a piece of art in your hand, that delivers and intensifies the wine aromas and characteristics through its unique and beautiful bulbous base. When using the glass for wine tastings in bars, people literally flooded me with comments about its beauty. Simply spectacular and one of the best wine glasses I have ever tasted with."

Emanuele Trono, Italy
[Instagram.com/enoblogger](https://www.instagram.com/enoblogger)

"My experiences with the Zieher VISION series have been outstanding. The glasses praise the wine, they are extremely light, give expressiveness to the wine and are also a beautiful design object. They are a must-have for every wine lover and I also became Zieher-addicted."

Daniel Bayer, Germany
www.wein-verstehen.de

"With their VISION series, Zieher managed to design innovative wine glasses, which lift wine tasting to a completely new level. I'm thrilled and can recommend explicitly their glass INTENSE for opulent wines. It stages particularly the German Riesling."

Günter Seeger, USA

"My whole team and I myself are convinced that the beautiful glasses of the VISION series establish a new league of wine glasses. We also receive a lot of positive feedback from our guests."

Rasmus Christensen, Denmark
[instagram.com/winewherever](https://www.instagram.com/winewherever)

"The VISION series have a remarkable ability to bundle the fragrance, while providing an elegant and aesthetic appearance."

For series VISION, we recommend the CAMBRO - Camrack® Warewashing System

The Camrack® Warewashing System will protect your valuable stemware and tumblers not only during washing, but also during stacking, storage and transportation. This helps to avoid costs related to damaged glasses. Detailed information about the Camrack® Warewashing System is available at www.cambro.com.

Camrack® 4-in-1 Warewashing System

- Efficient washing
- Optimum sanitary storage
- Inventory control
- Safe, sanitary transportation

Camrack® Warewashing System

Cambro® offers a 4-in-1 system where glassware is washed, stored, identified and transported in one single unit. This multipurpose unit involves the Camdolly®, Camrack® compartment racks and the Camrack® cover.

VAGANZA

The filigree champagne flute "Vaganza" is handblown and created in superior handicraft by experienced glassblowers. The result of this work is a crystal glass of highest craftsmanship. "Vaganza" captivates by its slim silhouette and elegant shape that bestows an exclusive character on the glass. The versions coated in gold or platinum fascinate with brilliant colours and the luxurious appearance of the applied decors. "Vaganza" seduces by its charming lightness and adds a touch of high society to any event.

Miniatures

"Good taste is the art of understanding small things."

Rousseau

“Cuspis”

A honey spoon of a different kind reliably holds the honey and, while being twirled, delivers it drip-free onto the fresh bread or into the tea. The tapering handle made of white borosilicate glass additionally offers the use as a skewer - for an extravagant presentation of dishes. A separately available tray made of black glass keeps the surface of tables clean and emphasizes the spoon by creating an appealing contrast.

The glass pillow “Donna” is available on page 150.

“Cuspis”

The large cloche “Cuspis” and the suitable plateau plate are available on page 144.

Borosilicate glass in its most beautiful shape!

The primary design element of the series “Cuspis” is a glass ball studded with fine spikes. The cloches with a fitting porcelain plateau plate/mini bowl are available in three sizes and the inspiration for their shaping was derived from the nut of the oak tree. The star-shaped handle is located at the top of the cloches and allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain bowls is reminiscent of acorn caps. The bowls can be used on both sides. When used as a plateau plate, the dishes move closer to the guest, while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Used as a bowl, it offers space for gravies, sauces and more. Amuse-bouches and any kind of finger food can be served on the series’ shapely amuse gueule spoons. In this case, the glass ball serves as a secure handle. The capacity of the spoons is sufficient for a usage with sauces or dips on the plate, but also at the breakfast buffet for jam and the like.

"Flex" - Perfectly designed and beautiful!

Tubes made of borosilicate glass – shaped into unique pieces by way of heat exposure. These perfectly designed elements of the "Flex" series can only be manufactured in such a sophisticated quality by extremely precise control of timing at exact temperatures.

Elegant presentation plates for amuse-bouches, fingerfood and other artfully arranged delights of upscale cuisine originate from this complex procedure. The "Flex" series is also suitable for intermediate courses or smaller desserts as well as presentations of bread and oil or dips.

The artfully curved inside of the tubes offers creative space for cutlery or napkins, decorative herbs, edible blossoms and more!

A rest for knives or chopsticks in the same language of design blends harmonically into this series. Chopsticks made of borosilicate glass are the perfect completion for this line. The satined surface of the sticks provides for pleasant haptics and creates an appealing contrast to the clear glass of the rest.

Design: Michael Schwarzmüller
Idea and concept: Zieher

“Lacuna” - braving the gap!

Perforated walls, irregularly spread openings in filigree borosilicate glass – the small bowls of the series “Lacuna” stand out. Numerous holes in different sizes form the basis for sophisticated presentations of high-grade dishes. They set limits on the one hand, however offer various possibilities for creative arrangements and an extraordinary food presentation on the other.

The glass cone can be employed in three different ways. Rested horizontally and stabilized by a fork or a spoon, standing upright in various miniatures or put in elegant supports made of silicone or as an extraordinary cloche for the presentation of delicate tidbits.

Suitable accessories like anti-slip coasters made of food safe silicone or borosilicate glass straws enormously extend the scope of application of this series. Even working with small skewers for finger food may be envisaged.

Glass designer Michael Schwarzmüller puts delicious appetizers perfectly into focus. The filigree jars with their organic form offer top chefs and professional hosts the possibility of serving fingerfood and amuse-bouches in an "Amuse"-ing way.

"Amuse" wants to inspire imagination and stimulates playful experimentation. This series made of thin-walled, strong and heat-resistant borosilicate glass comprises of a variation of beautifully handcrafted cups, bowls, cloches and remarkable glass tins. The latter are perfectly suitable for the presentation of small soups and desserts, but may also be used as exceptional sugar bowls. The exact fitting lid ensures the protection and hygiene of the content. The double-walled bowls of the series in fact absorb heat or cold.

4681.S	black	6 pcs
4681.W	white	6 pcs

The coasters made of food safe silicone are shapely accessories with a highly practical benefit. Clattering and wildly sliding miniatures on plates and trays are a thing of the past.

The skid-proof discs with their delicately structured, matt surface facilitate the service's work and ensure undisturbed enjoyment for the guest.

The coasters are available in two colours; the white ones can be integrated discreetly, whereas the black ones can be used deliberately as contrasting, decorative elements.

These spherical bowls made of borosilicate glass accentuate in particular artfully presented dishes by their minimalistic and elegant design.

The flattened bottom of the bowls ensures a safe and even stand. Optionally available silicone rings for the small version guarantee skid-resistance and also allow a positioning at an angle.

All bowls are made of borosilicate glass, whose strength, temperature resistance, high transparency as well as absence of bubbles guarantee a high quality product experience.

Please note:

Since all glasses of this series are handblown, deviations from the declared content may occur.

Double-walled thermo-glasses

Handblown, double-walled glasses made of borosilicate glass combine spectacular optics and extraordinary technical features. The vacuum between the two glasses prevents the formation of condensate on the outside of the glass when the ambient temperature is warm and the drinks are cold. The isolation effect keeps cold and warm liquids cold or warm for a longer time. Borosilicate glass by Zieher stands out due to its hardness and high temperature resistance.

The glass tray is available on page 264.

bowl "Cave"

biscuit china, white, inside glazed, opening: Ø approx. 8 cm, in black gift box

item	Ø in cm	height in cm	PU
4375.01PB	approx. 11	7	1 pc

Like the shell hides the pearl, the porcelain bowl "Cave" conceals precious delicacies within its hard shell. At first sight, this porcelain piece only partly reveals its interior. "Cave" consists of intricately worked hard porcelain and captures by its soft shape and the velvety haptics of the unglazed outside. Touching the cave-shaped bowl, it feels almost like a palm stone made of white gold, having a soft appearance with delicious contents. "Cave" is predestined for a use at cocktail and hors d'oeuvres receptions or at the flying buffet. The miniature bowl can be carried comfortably and perfectly fits in the palm of the hand.

cooling pack

nylon, black/white, non-toxic cooling gel

item	l x w in cm

The glass bowls "Cave" are available on page 76.

Design: Wilma Greim

Stay cool!

Serving chilled food is primarily a technical challenge with certain dishes or intermediate courses. With Zieher's two-coloured cooling pads, this necessity can be met in a sophisticated way, also in terms of visual appearance. The wrapper made of black resp. white nylon fabric appears classy and unobtrusive. The pads are filled with gel which remains shapeable, even when frozen and thus allows an adjustment to the tableware used. The pads can also be used on the buffet. For further information, please have a look at pages 40 and 41.

"Reef"- showpieces of table culture!

NEW

Large numbers of single parts are casted from premium pewter and subsequently assembled in high-grade craftsmanship to give shape to these items. The inimitable pieces of art created that way are unique items, which inspire by the polished surface of the organic structures and the rounded tails of the meshwork. The products of the "Reef" series are genuine gems of dining culture!

The small presentation baskets can be equipped with various miniatures made of clear or coloured glass and and give your food a stunning stage.

More items of the „Reef“ series are available on page 64.

1939.02	Flame	12 pcs

Slate is a unique and exceptional natural product. The surfaces of our slate plates have the typical slaty cleavages, therefore every piece is unique. Small deviations in structure, thickness and weight of the plates cannot be avoided because of the nature of the product. There may be single inclusions of other minerals and fossils. These extraordinary features give slate its precious and vivid appearance. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles.

Marble is a natural product, which means that the dark brown marbling can vary strongly. This is exactly what creates the vivid and unique look of this natural stone. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles. Please clean only with a wet cloth and gentle cleaners. Not dishwasher-safe. Cleaning in a dishwasher may dull the surface.

Granite is a natural product. Deviations in colour or structure are possible. Infrequently, pockets in the stone may occur. Granite is the hardest and most impervious kind of our natural stones! Sushi trays made of granite are available on page 169.

Cruet stands, trays, etageres and more!

“Slope”

The melamine tray “Slope” is characterised by its unobtrusive shaping and the pleasant feel of the matt, finely structured surface. An elevated corner and the resultant asymmetry awards the tray that certain something.

Besides the obvious function as a service tray for espresso, cocktails, snacks and more, it also performs well in the hotel bathroom or as a decorative trivet in the hotel room.

“Slope” is available in two sizes. The robust raw material melamine appears very elegant due to its matt surface and of course, it complies with demands of everyday use like food safety, dishwasher resistance as well as stackability.

tray “Slope”
melamine, black, matt, rectangular (oblique), stackable, utility space: approx. 26 cm x 15.5 cm

item	l x w x h in cm
4578	39x30.5x8.5

The champagne flute “Vaganza” is available on page 198.

“Bento Box” – flexible mobility

Serving guests at the pool, beach or on the terrace is often associated with longer walking distances for the service staff. The “Bento Box” from Zieher has been designed especially for these requirements – all components are stackable. This way they guarantee a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time.

Matt black melamine, modern design and subtle contrasts created by different surface structures, form the perfect setting for individual creations and popular classics such as burgers, club sandwiches or salads.

The versatility of the individual components also becomes evident in the cover, which has decorative ventilation slots to dissipate steam generated by hot food. This lid can also be used as a tray, whose less finely textured inside has an anti-slip effect.

All information about the Bento Box are available on page 123.

"Connect!"

serving platters made of walnut!

Sublime in their appearance, unadorned in design, practical by compact formats and highly functional in combination - the solid wood boards of the series "Connect!" convince as a snack board, serving or cutting board, or as a presentation platter created by the combination of several elements.

"Connect!" is an extremely versatile tool for everyday use. The integrated tenon in the shape of a dovetail serves as a decorative handle with an artisanal touch. Suitable cutouts at the underside allow an easy combination of different elements. Skid-proof positioning feet ensure a firm stand, the slanted outer edges facilitate handling. The solid walnut wood is sealed with high-quality oils, which makes it easy to freshen up the surface from traces of everyday wear and tear.

Enjoyment in a pentagon

These classy service platters take effect by their exceptional shape and the stylish combination of oiled walnut wood and slate grey ceramics.

Available in two different sizes for just one or more persons, single courses right up to mixed arrangements - so-called "sharing plates" - can be staged appealingly.

For bigger buffet set-ups, several plates can be arranged space-saving and thus provide an extraordinary structuring of the buffet spaces. The pentagonal design allows numerous arrangements - as a result, beautiful presentation areas for regional delicacies, desserts, antipasti and much more can be created.

The projecting handle permits an easy removal of the insert and thus allows an uncomplicated cleaning of the thin but very robust ceramic.

“Solid”

This service tray with integrated separations is perfectly suitable for the service of small dishes at the pool, the beach or in the room. The major compartment has been designed for plates with a max. diameter of up to 29 cm, the lateral separation offers sufficient space for cutlery and napkin. Also insertion bowls with a max. width of 7.5 cm will find space and thus can be used for dips, salad and other side dishes. You will find a selection of suitable inserts on page 260. The trays are equipped with integrated grip holes and stackable. Finger joints at the corners, non-skid rubber feet and a food-safe sealing of the solid walnut wood fulfill the high-quality standards, which are valid for all items of the “Solid” range.

A suitable tray stand for the roomservice tray item 4735 is available on page 272.

serving tray “Solid”

Breakfast in bed -
Inroom dining!

The room service tray as well as the bed tray stand out due to the precious walnut wood, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that even with soft mattresses, a comfortable sitting beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

"Solid" - Wood in its most beautiful shape!

Wood from the European walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in daily use. Please note the enclosed care instructions, not dishwasher-safe, do not immerse in water!

The bread buffet "Solid" is available on pages 108 to 113.

Delicacies in delicate setting!

Due to the comprehensive range of accessories, the "Solid" presentation box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. The also available lid made of brown-tinted glass puts the presented goods in the limelight. Apart from an insert with round cavities for nine truffles/chocolates and a flat plate that can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules. The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. No matter if it is an assortment of coffee specialities or various delicacies of the pâtisserie, the presentation box by Zieher provides the perfect setting for many purposes.

1 + 2 + 4

1 + 2 + 5

The most exquisite chocolates/truffles in an exclusive ambiance

Finest creations of the pâtisserie have to be presented in a worthy frame!

"Solid"

Marco D'Andrea:

"In search of the perfect way to present my chocolates/truffles and after receiving manifold inspiration from colleagues, I have asked a carpenter of my acquaintances to manufacture some first prototypes. It was important to me that the box could be used to present jewellery and diamonds as well.

The round deepenings in the box are specifically matched, that even if the box is inclined, the truffles will not roll out. Chocolates/truffles with a diameter ranging from 22 to 28 mm fit easily into the deepenings. The dark wood of the walnut tree gives the box a fine and modern look. The brown tinted glass reveals the secrets hidden inside the box only once it is given a very close look. The glass can be inserted vertically into the back part of the box or can be slid in under the box. Once closed, anything inside the box can be stored hygienically. The narrow, sidelong compartment in each box can be used individually. Besides placing a tong or other serving cutlery, it can also be used for the presentation of more chocolates or petit fours."

Idea and design for these presentation boxes "Solid" for truffles and filled chocolates are from Marco D'Andrea, pâtissier and "Junger Wilder 2012". In 2014, D'Andrea has been proclaimed "Pâtissier of the year 2014" during the "Leaders of the Year Award" convention (powered by ROLLING PIN).

Further awards:
"Pâtissier of the year 2019" - Rolling Pin
"Pâtissier of the year 2020" - Gault Millau
"Pâtisserie team of the year 2020" - Schlemmer Atlas

Design: Itamar Harari

The bread baskets made of solid walnut wood surprise with their exceptional design and their highly sophisticated handicraft. Designing these bowls, the Milanese designer Itamar Harari did not only think of serving bread, but also of the typical Italian Grissini. Recesses at both ends are especially suitable for those. A selection of fruit in the hotel room also receives much attention if stylishly presented in

these extraordinary bowls made of beautiful wood.

"Falcon" - really detached!

This etagere, inspired by the elegance of a falcon, is giving wings to the creativity at the buffet and on the table. A single one can bear up to three plates on it's wings or when used as a duo, also fitting buffet platters or a combination of both can be installed. Anti-slip supports can be plugged on if needed and thus provide a safe positioning of the platters.

As a high-tea stand, the etagere carries plain white coup plates or matt-black plates with a slate-like structure, which fit exactly into the slots of the wings.

The mirror polished, solid stainless steel (3 mm) punctuates the precious impression of the dynamic shape, incorporated handrails facilitate the service. This majestic creature is sitting on a stylized branch, which also provides a firm stand.

Etagere “DressCoat”

Anti-slip-rings

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. A very special aesthetic set-up can be arranged by using a combination of several etageres along with the biggest plates of the “DressCoat” series (page 148).

In connection with the almost invisible tier stands the plateau plate appear amazingly airy and playful by their floating look-and-feel. A buffet presentation with an elegant vibrancy caused by the drapery of the “DressCoat” plates – that’s where it comes into its own! Even in the hotel room the etageres can be positioned in an eye-catching way. Equipped with “DressCoat” or other tableware, small snacks, a selection of fruit or a sweet welcoming treat can be staged in an appealing way. All informations about this etagere are available on page 94.

You can find the plateau plate item 4388 and further items of the “DressCoat” series on page 148.

“Flower Tower”

Design: Itamar Harari

Floral shapes in a steely gloss!

Seemingly organic shapes in an interplay with the gloss and reflections of hammered and polished stainless steel make up the special charm of this product line. Two etageres as well as plateau plates in different heights (page 93) allow a visually harmonious yet flexible and diversified presentation of appetizers or desserts on the buffet. But also finger food, petit-fours, elaborately decorated cup cakes or a selection of pralines in the guest room find a convenient stage on these products.

The ice cream/sorbet cups and petit-fours stands in various sizes make a nice complement and individually stage appetizers or a dessert.

The formal base for all products is a slightly arched and kidney-shaped miniature plate. On three levels, the buffet etagere combines seven small plates each to a presentation platform of floral appearance and offers space to present up to 21 delicacies in a compact and stylish way. The single levels are supported by a filigree trestle made of massive stainless steel, which in shape and construction, deliberately readopts the design of other Zieher etageres. So nothing gets in the way of a harmonic combination of the different product lines.

The table etagere consists of one level only and is therefore perfectly suitable for the restaurant service to present intermediate courses, antipasti or dessert variations. This product is the ideal choice, even as a stylish storage dish for different types of fruit or accessories of daily use.

“Flex-Tree” & “Flower-Tree”

A tree to dream of!

On 13 resp. 25 levels, these trees offer the possibility to present and showcase finger food, petit-fours and other delicacies.

The “Flex-Tree” enthuses by its versatility!! It can be equipped with various miniatures. You can find a small selection and all information on these etageres on pages 90 and 91.

The leafs shape of the “Flower-Tree” is based on the already existing plateau plates and “Flower-Tower” etageres (page 224 and 246). Especially on the buffet, this opens up the option to arrange installations diversified but yet harmonious and variable.

Elegantly served and presented in style - classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres are available with three, partly four levels and in two sizes. The classic mini format etageres effectively present petit fours, desserts, chocolates or other delicacies. The larger version is ideal for scones and jam during Five O'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table.

“Fakir”

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination. An interesting add-on to the “Fakir” bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

Please note: The items made of brass are suitable for cold/dry food only. Not dishwasher-safe.

Candle holders
Wind lights

"Somnia"

At first glance the golden branches, strapped to a bundle, are reminiscent of a besom of a different kind. With candlelight, this extraordinary lighting object creates fascinating effects and provides for a cosy and comfortable ambience.

The filigree rods, visually appealing like thin branches, are made of brass and manufactured piece by piece in traditional sand casting. Afterwards, they are soldered onto a solid baseplate with an elevated rim. This baseplate avoids the leakage of wax and protects the table surface from the heat. Additionally, it forms the frame for a removable cylinder made of heat resistant glass, which by way of its satined surface, intensifies the mood of the light and protects the flame from wind at the same time.

For tealights or candles up to a height of 10 cm and a diameter of 7 cm.

2316.PB	10	16.5	1 set (2 parts)

"Reef"

The wind light fascinates by reflections of the candlelight in the silvery metal and the dancing shadows of the slender structures. A removable cylinder made of heat resistant glass protects the flame from wind and thus allows the usage in the garden and on the terrace.

Since medieval times, pewter has been used primarily for table top items and has been the most important raw material for a very long time. The popularity of pewter first started decreasing in the 18th and 19th century by the progressing development of glass and the increasing popularisation of porcelain. Since then the usage of pewter has shifted mainly to decorative elements. Up-to-date pewter is 100 % lead-free and therefore uncritical when used for food.

Wind lights

The stepped drillings in our wind lamps made of walnut allow the usage of Zieher LED tealights as well as standard tealights with a diameter of 38 mm and 58 mm.

coaster "Solid"

b) 8132.UK	UK
c) 8132.US	USA

Consistently long lighting time with deceptively real flickering effect!

The LED-candles, in combination with different fitting Zieher tealight holders, turn every table into a homelike place for romantic hours. The power supplies, which are available separately, optionally with EU-, UK- or US-plug, guarantee a worldwide operation of the LED set. Due to the induction charging mechanism, the LED-candles do not have any electrical contacts. This feature, as well as their water resistance (not waterproof), make them ideal for outdoor use. Each tealight candle is equipped with a yellow shining LED and by skilfully switching between bright and dark, it achieves a deceptively real candle flickering effect. The rechargeable battery, which is integrated in the LED-candle, assures a lighting time of 20 hours with a charging time of about 8 - 9 hours and a lifetime of more than 500 charging cycles (this equates about 10.000 operating hours). The induction charging base, which is included in the set (item 8130), allows the charging of up to 12 LED-candles at the same time. Another plus is the integrated plug connection which allows to connect up to 4 charging bases to one single power supply. This enables the charging of up to 48 LED-candles with one electrical socket at the same time. One set (item 8130) includes 12 LED-candles and 1 induction charging base. The respective power supply (item 8132.EU/UK/US) needs to be ordered separately.

Bring the romantic atmosphere of candles to your own table - via modern LED technology!

Room service
Guest rooms

“Solid”

More items of the series “Solid” for the buffet are available on pages 104 to 119.

buffet platter, grey glass, 2/1 GN
hardened glass, 10 mm thick, dark grey, edges polished and deburred

item	l x w in cm
8004.07B	65x53

The tray stand of the series “Solid” convinces in every aspect!

The shapely stand always provides the appropriate possibility to set up the “Solid” room service tray (item 4735) in the hotel room, but also in the restaurant. Combined with Zieher buffet platters in the format 2/1 GN, the stand easily and flexibly creates new spaces at a comfortable height. It is predestined for the use at the buffet as well as for the use during coffee breaks in the congress and convention business. The massive frame made of walnut wood harmonizes perfectly with other buffet items of the series (pages 104 to 119) and can be combined with them very well. Anti-slip rubber feet on the top prevent the shifting of platters and trays, felt gliders at the base protect the parquet flooring and ensure safe standing.

tray stand/side table “Solid”
walnut, with black nylon ribbons, anti-slip rubber feet on top and felt gliders at the bottom, for trays and buffet platters in sizes starting from 55 cm x 36 cm, 102 cm high (folded up), 87 cm high (opened)

item	l x w x h in cm (opened)

item	l x w x h in cm
4735	60x40x5.4

Breakfast in bed - Inroom dining!

The room service tray as well as the “Solid” bed tray stand out due to the precious walnut, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that even with soft mattresses, a comfortable seating beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

The recessed longside of the room service tray simplifies comfortable dining directly off the tray.

Delicacies in delicate setting!

Due to the comprehensive range of accessories, the "Solid" presentation box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. The also available lid made of brown-tinted glass puts the presented goods in the limelight.

Apart from an insert with round cavities for nine truffles/chocolates and a flat plate which can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules. The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. No matter if it is an assortment of coffee specialities or various delicacies of the pâtisserie, the presentation box by Zieher provides the perfect setting for many purposes.

“Solid”

This service tray with integrated separations is perfectly suitable for the service of small dishes at the pool, the beach or in the room.

serving tray “Solid”

walnut, food-safe sealed, not dishwasher-safe, stackable, 2 compartments: 30 cm x 30 cm and 30 cm x 8 cm (for cutlery or china/glass bowls), with 4 rubber feet

item	l x w x h in cm
4769	41.7x32.5x6.7

The major compartment has been designed for plates with a max. diameter of up to 29 cm, the lateral separation offers sufficient space for cutlery and napkin. Also insertion bowls with a max. width of 7.5 cm find space and thus can be used for dips, salad and other side dishes. You will find a selection of suitable inserts on page 260.

The trays are equipped with integrated grip holes respectively recessed grips and they are stackable. Finger joints at the corners, non-skid rubber feet and a food-safe sealing of the solid walnut wood fulfill the high quality standards which are valid for all items of the “Solid” range.

4772.33PB	33.5x22.5x7

The platter “Collina” is available on page 153.

Bedded on glass

This variant of the “Donna” pillow is made of frosted glass and despite its hard and massive raw material it surprises by its pleasantly soft and velvety feel.

The organic shape of this extraordinary piece offers an ideal presentation area for extravagantly staged intermediate courses or serves as a fancy place to keep all sorts of small objects of everyday life. Even when used as a soap dish, the pillow cuts a good figure. A version made of porcelain is available on page 151.

Bedded on wood

Made of solid wood, milled with dedication and refined with high quality oils!

This sculpture of solid walnut, one of the finest European varieties of wood, has its own appearance. The sealing with oils emphasises the striking grain of the wood and gives the surface a silk-matt gloss as well as amazing haptics.

One just has to touch the softly curved forms of this hand charmer. Whether used as a fruit bowl, as a place to keep accessories or as sculptural decoration - “Donna” seduces in every material!

“Podia”

The fruit bowl “Sixth Sense”
item 2171.02 is available on page 83.

Please note: by reason of

	36x20x9 (2nd bridge)	
	42.5x20x12 (3rd bridge)	

In-Room Dining

The buffet bridges and trays of the “Podia” series offer several advantages! They are light but robust, flexibly usable and can be stored in a space-saving way. With its use as a display on the buffet, during coffee break or as a platter for fruit or little somethings in the hotel room - “Podia” offers multiple possibilities for use and flexible handling. The tray in 1/2 GN format is especially suitable for different miniatures made of porcelain and glass. Slide-proof silicone coasters in different styles (page 209) guarantee a good grip during service. All parts of this series consist of form-glued authentic wood veneer. The bridges are available in two types of wood. The light version harmonizes very well with mundane but also with rustic-style furnishing, the version with the black-brown stripes appears exotic and modern.

anti-slip rings

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. Even in the hotel room, the etageres can be positioned in an eye-catching way. Equipped with “DressCoat” (item 4388, page 94) or other tableware, small snacks, a selection of fruit or a sweet welcoming treat can be staged in an appealing way. All information about this etagere is available on page 94.

The plateau plate item 4388 and
more items of the “DressCoat”
series are available on page 148.

“From the merely comparable to the extraordinary” was the guiding principle during the development of the “Kibu” coat rack. The rack is made of massive European hardwood and has a dark brown hue. The bottom plate made of 8 mm strong, satined stainless steel creates a pleasing cool contrast to the warm aura of the solid wood and simultaneously provides a very safe and steady base. The 16 bolts, which can be used to hang many jackets and other pieces of clothing, are also made of stainless steel, relating to the material of the base. Rolling lines and surfaces unite harmoniously and fit unobtrusively to every style of furnishing. Offering a high degree of functional usefulness, combined with extraordinary design – “Kibu” is both an item of daily use and a design feature.

GENERAL CONDITIONS

This catalogue is valid as of March 1st, 2020. Any catalogues and price lists issued previously become invalid as of that date. This catalogue is valid until February 28th, 2021. Misprints and errors excepted. Colour deviations from photographs reserved. All indications of sizes or measurements are approximate ones and subject to alterations. The respective general terms of sale and delivery of our foreign partners apply. For a list of our foreign partners, please consult: www.zieher.com. Changes on technical specifications and terms of delivery of the products are reserved and need explicit, written confirmation by Zieher or the respective Zieher business partner.

Photographs are protected by copyright law. Duplication, even in parts, as well as reproduction by photomechanical devices, transfer into systems of electronical data storage and data processing, and adoption of the catalogue layout as well as the use of its parts for advertisement purposes are prohibited and will be legally prosecuted as violations of the German copyright law or the law of competition respectively.

Making precious materials more precious - whether it is ...

Glass and china refinement:

Large-scale coatings on glass and china in precious colours enrich every dining table and create luxurious accents!

In order to achieve this decorative style, available in gold, platinum and bronze, the precious metals are burnt onto the varnish at more than 880 °C and as a result, the coating is dishwasher-safe. Cloches made of glass can now be used for serving warm dishes as well and condensing water remains invisible to a great part.

By using resistant precious alloys, we obtain a connection to the varnish, which is strong enough for the products to become dishwasher-safe. Test series by the "Institut für Werkstoffe Heraeus Precious Metals GmbH & Co. KG" have proven the dishwasher resistance of the décor.

Partially, the possibilities of coating are dependent on the form of the product. Requests are being tested in each case according to their feasibility.

The bronze colour is a special case since it presents itself in numerous interesting shades of colour. Depending on the shape of the product, especially when looking at immersions, the colours can vary from gold-bronze shades to blue-violet ones, which blend into each other and create unique effects.

Specific patterns/orders are usually executed quickly. Please do not hesitate to send us your special request!

Satin-coated logos applied before the refinement still remain visible.

colour gradient "bronze"

Please note:

Products are dishwasher-resistant. Please take note of the instructions given by dishwasher producers and detergents to avoid damage.

Since the coatings are made of precious metals, the use in microwaves is not recommended under any circumstances.

structured glass

glass and china

... glass, china or stainless steel – everything is possible!

Stainless steel refinement through PVD-technology

Highly polished and matt stainless steel can be refined by using PVD-technology to obtain golden, copper and black colouring.

PVD stands for **Physical Vapour Deposition** and describes a method to coat products with different materials by way of sputtering in a vacuum. Contrary to the galvanic refinement, for example with copper, items refined by using PVD-technology will neither oxidize nor tarnish at the surface. Thus any copper refinement can be done without applying specific anti-tarnish protection. The technical feasibility of PVD-refinement depends on size and shape of the items and has to be checked individually. Price, minimum order quantity and delivery time upon request!

stainless steel, polished

golden

copper

black

Advantages of the PVD-coating

- Food-safe
- Dishwasher-safe
- Better strength and adherence compared to galvanic refinement
- Brilliant colouring, colourfast and resistant against UV radiation

Powder-coating:

All items made of stainless steel can be powder-coated in all current RAL colours upon request. In contrast to the PVD refining, this coating is not dishwasher-safe. We will be delighted to advise you!

Please ask us, we will gladly prepare an individual offer for you!

Individuality in glass ...

Logos, letterings etc. can be put on the double walled glasses to give them an individual touch. Those are applied onto the outer side of the inner glass which ensures the protection from dirt and abrasion.

... melamine ...
